TODAY'S ACTIONS ARE:

Adoption of the following resolutions:

Subitem-A: (R-2002-1015)

Authorizing the City Manager to accept the lowest responsible bid of BRH Garver for the construction of Water and Sewer Group 539;

Authorizing the City Manager to award a phase funded contract to BRH Garver in an amount not to exceed $4,215,201.75;

Authorizing the expenditure of funds on Phase 1 of the project in the amount of $2,983,945.52, of which $1,653,762.70 is from CIP-73-852.5, Water and Sewer Group Job 539, and $1,330,182.82 is from CIP-44-311.9, Water and Sewer Group Job 539;

Authorizing the additional expenditure of funds in an amount not to exceed $575,090.58 from Sewer Fund 41506, CIP-44-001.0, Annual Allocation - Sewer Main Replacement, and an amount not to exceed $167,225.17 from Water Fund 41500, CIP-73-083.0, Annual Allocation - Water Main Replacement, provided that the City Auditor and Comptroller first furnishes one or more certificates demonstrating that the funds necessary for such expenditure are or will be on deposit with the City Treasurer;

Authorizing the City Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves. (BID-K01067C)

Subitem-B: (R-2002-1160)

Declaring that the information contained in Environmental Impact Report SCH-98121003, certified by Resolution R-292363, adopted on October 26, 1999, has been reviewed and considered by Council and it is determined that no substantial changes or new information of substantial importance within the meaning of CEQA Guideline section 15162 would warrant any additional environmental review in connection with the approval of the construction of Water and Sewer Group 539; directing the City Clerk to file a Notice of Determination with the Clerk of the Board of Supervisors.
NATURAL RESOURCES AND CULTURE COMMITTEE’S RECOMMENDATION:

On 11/14/2001, NR&C voted 4-0 (Councilmembers Peters, Wear, Frye and Madaffer voted yea. Councilmember Inzunza not present) to approve with direction to the City Manager to report back to the Natural Resources and Culture Committee on recent project cost increases in light of the increased quantity of CIP projects expected in the near future.

CITY MANAGER SUPPORTING INFORMATION:

Water and Sewer Group 539 is part of the City of San Diego's continuing Annual Water and Sewer Main Replacement Program. The work consists of replacing approximately 12,200 feet (2.31 miles) of water main and 9,700 feet (1.84 miles) of sewer main. Also, this project includes the construction of thirty-one (31) pedestrian ramps and the slurry sealing or resurfacing of the impacted streets.

This project lies in the Centre City and Barrio Logan Community Planning areas within the area bounded by Third Avenue and 17th Street on the east and west and bounded by Market Street and National Avenue on the north and south. Residents will be notified by mail at least one month before construction begins by the Water Department and again ten days before construction begins by the contractor through hand distribution.

The existing sewer and water mains were installed as early as 1917 and are now undersized and have experienced many breaks and stoppages. Replacement of these deteriorated water and sewer mains will continue to provide the community with a safe and reliable water and sewer infrastructure well into the next century.

This project was previously authorized by Council on June 5, 2001. The bid opening date was September 4, 2001. There were 32 bid packages mailed and 5 bid packages received. BRH Garver was the lowest responsible bidder, with a bid which was 16.28% higher than the engineering estimate, which therefore requires additional funding.

FISCAL IMPACT:

This action brings the total cost to $6,018,580.75 of which $5,276,265 was previously authorized on June 5, 2001, by Resolution R-294986. The additional amount of $575,098.56 is available from Sewer Fund 41506, CIP-44-001.0, Annual Allocation - Sewer Main Replacement, and $167,225.17 from Water Fund 41500, CIP-73-083.0, Annual Allocation - Water Main Replacement. This project is scheduled to be phase-funded over two years, from FY2002 to FY2003. Funding for Phase I is available in Sewer Fund 41506, CIP-44-001.0, Annual Allocation - Sewer Main Replacement in the amount of $1,330,182.82 and in Water Fund 41500, CIP-73-083.0, Annual Allocation - Water Main Replacement in the amount of $1,653,762.70.

ADOPTION AGENDA, CONSENT ITEMS
RESOLUTIONS:

* ITEM-102: Two actions related to Awarding South Pacific Highway Trunk Sewer and Water Group 535.

(See memorandum from Frank Belock, Jr. dated 12/5/2001. Centre City Community Area. District-2.)

TODAY'S ACTION IS:

Adopt the following resolutions:

Subitem-A: (R-2002-1018)

Accepting the lowest responsive bid of Cal Southwest Construction, Inc., and authorizing the City Manager to award a phase funded contract to Cal Southwest Construction in accordance with the Contract on file in the Office of the City Clerk as Document No. 175781, in an amount not to exceed $4,888,574.74;

Authorizing the expenditure of funds on Phase I of the Project in an amount not to exceed $2,980,900, of which $1,447,504 is from Sewer Fund 41506, CIP-40-928.0, South Pacific Highway Trunk Sewer; $116,000 is from Sewer Fund 41506, CIP-46-193.0, Annual Allocation, Pool Contingency and $1,417,396 is from Water Fund 41500, CIP-73-083.0, Annual Allocation, Water Main Replacement;

Authorizing the additional expenditure of funds on the Project in an amount not to exceed $225,421 from Water Fund No. 41500, CIP-73-083.0, Annual Allocation Water Main Replacement, Sub CIP-73-852. 1, and an amount not to exceed $746,903.74 from Sewer Fund No. 41506, CIP-40-928.0, South Pacific Highway Trunk Sewer, to supplement the funding authorized by Resolution R-295524 for the purpose of funding construction, contingency, and other Project-related costs, provided that the City Auditor and Comptroller first furnishes one or more certificates demonstrating that the funds necessary for such expenditure are or will be on deposit with the City Treasurer;

Authorizing the transfer of an amount not to exceed $1,122,304 from Sewer Fund 41506, CIP-46-195.0, Belt Street Trunk Sewer to Sewer Fund 41506, CIP-40-928.0, South Pacific Highway Trunk Sewer;

Authorizing the use of City Forces in an amount not to exceed $160,000 for Fiscal Year 2002, and in an amount not to exceed $200,000 for Fiscal Year 2003, from Water Fund 41500, CIP-73-083.0, Water Main Annual Allocation, provided that the City Auditor and Comptroller first furnishes one or more certificates demonstrating that the funds necessary for such expenditure are or will be on deposit with the City Treasurer;
Authorizing the City Auditor and Comptroller, upon advice from the administering department, to transfer excess budget funds, if any, to the appropriate reserves. (BID-K02017C)

Subitem-B: (R-2002-1019)

Declaring that the information contained in Mitigated Negative Declaration LDR-40-0762, certified by Resolution R-295525, adopted on October 2, 2001, including any comments received during the public review process, has been reviewed and considered by this Council and it is determined that no substantial changes or new information of substantial importance within the meaning of CEQA Guideline Section 15162 would warrant any additional environmental review in connection with the approval of the construction of South Pacific Highway Trunk Sewer and Water Group 535.

Directing the City Clerk to file a Notice of Determination (NOD) with the clerk of the Board of Supervisors for the County of San Diego.

NATURAL RESOURCES AND CULTURE COMMITTEE’S RECOMMENDATION:

On 12/12/2001, NR&C voted 5-0 to approve. (Councilmembers Peters, Wear, Frye, Madaffer and Inzunza voted yea.)

CITY MANAGER SUPPORTING INFORMATION:

The South Pacific Highway Trunk Sewer and Water Group 535 project is part of the continuing Annual Capital Improvements Program to replace old concrete sewer and cast iron water mains.

This project is proposing to install approximately 4,018 feet of 33-inch trunk sewer and approximately 1,717 feet of 15-inch, 12-inch, 10-inch, and 8-inch sewer main, and to replace 9,298 feet of existing 10-inch cast iron pipe with 12-inch PVC pipe. This project is located within the Centre City Community area. The design has been completed through coordination with the Centre City Development Corporation. The proposed sewer and water mains are located on Pacific Highway, West Ash Street, A Street, Broadway, Columbia Street, State Street, Kettner Boulevard, and North Harbor Drive.

Traffic control plans were produced to ensure safety in the area. Due to heavy traffic at the intersection of Grape Street and Pacific Highway, construction at this area will be operated at night, between 9:00 p.m. and 5:00 a.m. Per MTDB’s requirement, construction at the areas adjacent to railroad tracks on West Ash Street, A Street, Broadway, and Kettner Boulevard will also be operated at night. On the other streets, construction will be operated during the day, between 8:30 a.m. and 3:00 p.m.

This project was approved by the City Council on October 2, 2001. Bids were opened on October 4, 2001. There were twenty-six (26) bid packages issued and five (5) bid packages received. Cal Southwest Construction, Inc., is the lowest bidder with a bidding amount of $4,888,574.74 which is 19.23% higher than the engineering estimate. Council action is requested to provide additional funding for the project. Contractors who did not bid were
contacted, and it was determined that re-advertising would not likely result in lower bids.

**FISCAL IMPACT:**

Total funding required for this project is $6,691,324.74 of which $5,719,000 was previously authorized on October 2, 2001, by Resolution R-295524. Additional funding in the amount of $225,421 is available from Water Fund No. 41500, CIP-73-083.0, Annual Allocation - Water Main Replacement, and $746,903.74 from Sewer Fund No. 41506, CIP-40-928.0, South Pacific Highway Trunk Sewer. This project will be phase-funded, $2,980,900 in FY 2002 and $3,710,424.74 in FY 2003.

**ADOPTION AGENDA, CONSENT ITEMS**

**RESOLUTIONS:**

* ITEM-103: Re-advertising and Awarding of Construction Contract for Sewer Pump Stations 77A and 77B.

**TODAY'S ACTION IS:**

Adopt the following resolution:

(R-2002-1082)

Approving the plans and specifications for the furnishing of all labor, material, tools, equipment, transportation and other expense necessary or incidental and inviting bids for the Construction of Sewer Pump Station 77A and 77B on Work Order No. 173912;

Authorizing the City Manager to establish contract funding phases and execute a contract with the lowest responsible bidder, provided that the City Auditor and Comptroller first furnishes one or more certificates demonstrating that the funds necessary for the expenditure under established contract funding phases are, or will be, on deposit in the City Treasury;

Authorizing the expenditure for construction, contingency, and related costs for this project of an amount not to exceed $932,649 over the $4,643,750 previously authorized by Council Resolution R-291390 for a revised authorized expenditure
of an amount not to exceed $5,576,399. (BID-K01114A)

**NATURAL RESOURCES AND CULTURE COMMITTEE'S RECOMMENDATION:**

On 1/30/02, NR&C voted 5 to 0 to approve. (Councilmembers Peters, Wear, Frye, Madaffer and Inzunza voted yea.)

**CITY MANAGER SUPPORTING INFORMATION:**

This project is part of the City of San Diego's continuing Annual Sewer Pump Station Rehabilitation Program. This project will upgrade existing Sewer Pump Stations 77A and 77B (SPS 77 A&B), which have experienced numerous mechanical failures due to electrical malfunctions and mechanical wear to current standards. Sewer Pump Station 77A is located in the Rancho Bernardo Community area. Booster Sewer Pump Station 77B is located in the San Pasqual/Lake Hodges Community area.

On July 14, 1997, the City Council approved a contract with Brown and Caldwell Engineering (B&C) to provide design services for SPS 77 A&B. On March 23, 1999, the City Council approved the advertisement for bids for SPS 77A&B upgrades. This action allocated $3.5 million for construction. Subsequently, this project was put on hold pending studies on how to best manage the wastewater flows from the Rancho Bernardo area. On July 17, 2000, the City Council approved an amendment to the design contract with B&C to investigate the conveyance of wastewater flows south to the City's metropolitan sewerage system.

On July 23, 2001, pursuant to Resolution R-295170, the City Council approved the advertisement for Bids for the upgrade of SPS 77 A&B. The bids were opened on October 4, 2001. The low bidder did not meet the City's Subcontractor Outreach Program (SCOPE) requirements, and the second low bid was $1.8 million over the engineer's estimate of $3.3 million. Because of this, it was decided to reject all bids, not award the contract, and take the opportunity to clarify the plans and specifications and to incorporate new electrical switching gear. The new engineering estimate for construction is $4,655,595.

This action will authorize the City Manager to re-advertise and award the construction contract for the upgrade of SPS 77 A&B.

**FISCAL IMPACT:**

The total project cost is $5,576,399 of which $4,643,750 has been previously authorized by Resolution No. R-291390 on March 23, 1999. The total of this request is $932,649. Funds are available in Sewer Fund No. 41506, CIP-46-106.0, Annual Allocation for Sewer Pump Station Rehabilitation. It is anticipated that this contract will be phase-funded in the amount of $4,182,370 for Fiscal Year 2003, and $1,394,029 for Fiscal Year 2004.

**ADOPTION AGENDA, CONSENT ITEMS**

**RESOLUTIONS:**
* ITEM-104: Grant Application - Property Acquisition along the San Diego River.

(Mission Valley Community Area. District-6.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2002-1186)

Authorizing the application for and expenditure of State Grant Funds to Acquire Property for the San Diego River Park.

CITY MANAGER SUPPORTING INFORMATION:

The Riparian and Riverine Habitat Grant Program administered by the California Department of State Parks was created through the 2000 Park Bond, approved by California voters in March 2000. The grant program is to provide funds on a competitive basis to increase public recreational access, awareness, understanding, enjoyment, protection and restoration of California's irreplaceable rivers and streams. The maximum grant award under the program guidelines is $400,000.

This action authorizes the City Manager to apply for grant funds to acquire 17.83 acres of open space along the San Diego River at the corner of Qualcomm Way and Camino del Rio North. Based upon the review of the grant program criteria, this project was identified as highly competitive for possible funding. The acquisition of the land will be cornerstone acquisition for a river park along the San Diego River.

Based upon Real Estate Assets Department (READ) staff’s conversation with the private owner of the land, they will sell the property if the City acquires an additional 3.20 acres of open space land along the south side of Qualcomm Way and Camino del Rio North. Both the READ and Park and Recreation Department staff support the additional acquisition for open space purposes. This Council action authorizes the City Manager to include this property in the acquisition along with the 17.83 acres identified in the grant application for a total of 21.03 acres of open space lands.

Prior to the expenditure of any authorized funding, Real Estate Assets Department will complete a formal appraisal verifying the actual cost of the property to be acquired. The project is consistent with the City's General Plan and Mission Valley Community Planning, and is supported by a number of environmental and community groups.

FISCAL IMPACT:

The total cost of this acquisition project is $1,000,000. If the $400,000 grant is secured, a total of $600,000 ($50,000 Fund 10571 and $550,000 Fund 30252) will be used to acquire approximately 21.03 acres of open space lands in the Mission Valley Community Planning Area.

ADOPTION AGENDA, CONSENT ITEMS
RESOLUTIONS:

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2002-1187)

Authorizing the Chief of Police to apply for, accept, manage and expend funds for the Automated Collision Scene Documentation Grant;

Declaring that the authorization shall include all aspects of fund acceptance, operation, contracts, expenditures, and certifications, and that the City will comply with all applicable statutory and/or regulatory requirements related to this appropriation;

Authorizing the Chief of Police to accept, expend and administer any amendments, extensions, renewals, or future funding of the project for a period of up to five years, provided funding is made available by the State of California.

CITY MANAGER SUPPORTING INFORMATION:

This project is funded by the California Office of Traffic Safety (OTS). Approximately $50,000 in grant funds will be used for the purchase, adaptation, and field deployment of specialized equipment to enable investigators to efficiently document serious and/or fatal injury collision scenes while in the field, and download the information into a software system.

The grant will fund collision diagraming software, two electronic data collectors, five digital cameras, one large-format printer, one desktop computer, and two laptop computers. The program will provide computer generated diagrams and data for the Police Department and safety engineers to analyze and evaluate the need for expanded enforcement and/or engineered safety improvements at collision locations.

The objectives of the project are to improve public safety, enhance investigation accuracy, reduce officer out-of-service and preparation time, and improve courtroom presentations. By standardizing and automating the collection and documentation of collision scene information, both in the field and in the office, the project will reduce the time that public roadways are closed due to collisions, return officers to duty faster, and facilitate more efficient and professional court presentations. The end product will be increased public safety through the ability to identify and rectify problem locations and features, and more effective prosecution of dangerous drivers.
FISCAL IMPACT:

OTS will provide approximately $50,000 for the purchase, adaptation and deployment of collision scene documentation equipment. There is no requirement for matching funds; however, SDPD has indicated the intent to contribute approximately $38,934 in staff time for project training and operations. Yearly SDDPC charges will be $1,229.80 each for the desktop computer and the printer, for a yearly total of $2,459.60, which will be funded from SDPD's budget. There is no requirement to continue project-related expenditures or services after grant funding is exhausted.

ADOPTION AGENDA, CONSENT ITEMS
RESOLUTIONS:

* ITEM-113: Improvement Agreement for the Santaluz Development at Black Mountain Ranch.

(Black Mountain Ranch Community Area. District-1.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-2002-914)

Authorizing the City Manager to execute an Improvement Agreement for payment of estimated increased sewer facilities maintenance and replacement costs in the Santaluz Development of the Black Mountain Ranch community.

CITY MANAGER SUPPORTING INFORMATION:

The purpose of this action is to accept funds from the project developer to be paid to the city. The funds are to reimburse the estimated additional costs the City will incur due to deviations in the sewer system which the developer has proposed.

As a requirement of the issuance of a public improvement permit for improvements located within Unit 3 of the Santaluz development in the Black Mountain Ranch community, Santaluz, LLC, a Delaware limited liability company was required to offset the long term estimated expenses for the operation, maintenance, and repair/one time replacement of sewer
facilities that deviate from City standards. The deviations include: a) pumping a portion of the service area that could be served by a gravity sewer system; b) increased length of force mains and higher head pumps; c) using unpaved access roads; d) grading and building pad elevations that require an increased number of mains to be located outside of paved areas; and e) implementing a sewer system alternative that increases the lineal footage of the sewer system well beyond what would normally be required for the number of customers to be served. The estimated cost to the City for these additional maintenance requirements is $245,172. Santaluz, LLC has agreed to pay the City $236,372, which represents the additional maintenance costs minus an $8,800 credit received for additional engineering costs Santaluz, LLC incurred in making sewer stations 87 and 88 compatible with the City SCADA System.

**FISCAL IMPACT:**

The reimbursement amount of $236,372 received from Santaluz, LLC will be deposited in Sewer Revenue Fund 41506.

**ADOPTION AGENDA, CONSENT ITEMS RESOLUTIONS:**

* ITEM-114: Two actions related to Otay Mesa Road Widening - Vernal Pool Preserve Maintenance and Monitoring.

(Otay Mesa Community Area. District-8.)

**CITY MANAGER'S RECOMMENDATION:**

Adopt the following resolutions:

Subitem-A: (R-2002-1135)

Authorizing the City Manager to execute a First Amendment to the Agreement with Helix Environmental Planning Inc., in an amount not to exceed $30,400 for environmental services for the Otay Mesa Widening Project, CIP-52-619.0.

Subitem-B: (R-2002-1189)

Declaring that the information contained in Environmental Impact Report No. 95-0101, certified by Resolution R-288210, adopted on December 10, 1996, has been reviewed and considered by Council and it is determined that no substantial changes or new information of substantial importance within the meaning of CEQA Guideline Section 15162 would warrant any additional environmental review in connection with approval of the Otay Mesa Widening Project and the Vernal Pool Mitigation Program; directing the City Clerk to file a Notice of Determination with the Clerk of the Board of Supervisors.
The Otay Mesa Road Widening Project provided for the improvement of Otay Mesa Road to a six-lane conventional highway from the easterly terminus of State Route 905 to just east of La Media Road. Construction of this project was completed in January, 2000. Also associated with the Otay Mesa Road Widening Project was the Vernal Pool Mitigation Program which included the restoration of a vernal pool preserve to mitigate the impacts of the road widening project.

The Army Corps of Engineers permit and the U.S. Fish and Wildlife Service Biological Opinion require this project to follow a five year maintenance and monitoring program. The original contract with Helix Environmental Planning, Inc. provided a three year maintenance and biological monitoring within the vernal pool preserve, wildlife corridor, and upland habitat areas. This action will amend the existing contract with Helix Environmental Planning Inc. by an additional two years to meet this maintenance and monitoring program requirement. This amendment will increase the original contract by an additional $30,400, bringing the total contract amount to $150,400.

**FISCAL IMPACT:**

Funding for this agreement is available in CIP- 52- 619.0, Otay Mesa Road Widening.

**ADOPTION AGENDA, CONSENT ITEMS RESOLUTIONS:**

* ITEM-115: Amendment No. 1 to the Agreement with Lee and Ro, Inc., for Sewer Pump Station 49.

    (Mission Valley Community Area. District-6.)

**CITY MANAGER'S RECOMMENDATION:**

Adopt the following resolution:

(R-2002-1098)

Authorizing the City Manager to execute a First Amendment to Agreement for Consulting Services for the design of improvements to Sewer Pump Station Number 49 with Lee and Ro, Inc.; authorizing the expenditure of an amount not to exceed $27,929 from Sewer Fund 41506, CIP-46-106.0, Annual Allocation - Sewer Pump Station Restorations.

**NATURAL RESOURCES AND CULTURE COMMITTEE’S RECOMMENDATION:**
On 2/13/2002, NR&C voted 4-0 to approve. (Councilmembers Peters, Wear, Frye and Madaffer voted yea. Councilmember Inzunza not present.)

**CITY MANAGER SUPPORTING INFORMATION:**

Council authorized an agreement with Lee and Ro on January 9, 2001, Document No. R-294420, for the upgrade of Sewer Pump Station 49. This facility is located along Camino del Rio North in the Mission Valley community. The pump station has been in service since 1982 and needs to be upgraded with the current design and safety standards. This includes an upgrade of the electrical system, installation of a natural gas generator, upgrade the pumps, rehabilitate the wet well, and install an emergency storage tank.

Amendment No. 1 covers the additional services required to accommodate an unforeseen design scope addition. During the design phase it was determined that a new wet well should be installed due to the deteriorated condition of the existing one. The existing one can also be utilized for an overflow tank reducing the possibility of a sewage spill.

The design of a new Wet Well will lead to several plan revisions, including civil, mechanical, and electrical disciplines. The new scope of work will include the proposed wet well and rehabilitation of the existing wet well to be used as an emergency storage tank. This work will require additional research, site investigation, engineering calculations, and coordination with City staff, property owner, Caltrans, and environmental agencies.

**FISCAL IMPACT:**

The total cost of this agreement is $194,907. Of this amount, $166,978 was previously authorized by Council Resolution R-294420. The estimated cost for this Amendment is $27,929. Funding for this request will come from Sewer Fund 41506, of which $8,929 is from CIP-46-106.0, Annual Allocation - Sewer Pump Station Restorations, and $19,000 is from Sub CIP-46-603.0, Sewer Pump Station 49. Total cost of this project, including construction, is estimated at $1,454,400.

* ITEM-116: Water and Sewer Group 489 - Contract Change Order No. 3.

(See memorandum from Frank Belock, Jr., dated 2/6/2002. College and Mid-City Community Areas. District-7.)
TODAY'S ACTION IS:

Adopt the following resolution:

(R-2002-1227)

Approving Change Order No. 3, with Pacific Southwest Construction & Equipment, Inc. (Document No. 172621/182291) for the construction of Water & Sewer Main Replacement Group 489, increasing the contract price by $572,523;

Authorizing the expenditure of an amount not to exceed $306,887.08 from Sewer Fund 41506, CIP-44-001.0, Annual Allocation - Sewer Main Replacement, and an amount not to exceed $313,914.92 from Water Fund 41500, CIP-73-083.0, Annual Allocation - Water Main Replacement;

Authorizing the use of City Forces on the Project for costs not to exceed $204,000 from Water Fund 41500, CIP-73-083.0, Annual Allocation - Water Main Replacement.

NATURAL RESOURCES AND CULTURE COMMITTEE’S RECOMMENDATION:

On 2/13/2002, NR&C voted 4 to 0 to approve.  (Councilmembers Peters, Wear, Frye and Madaffer voted yea.  Councilmember Inzunza not present.)

CITY MANAGER SUPPORTING INFORMATION:

Water & Sewer Group Job 489 is part of the City's ongoing Concrete Sewer and Cast Iron Water Main Replacement Program.  This project was awarded to Pacific Southwest Construction & Equipment, Inc., and includes the replacement of approximately 3,150 linear feet of sewer mains and 2,640 linear feet of water mains.  The construction of this project is currently 83% completed.

During construction of the sewer main on Meade Avenue, large cracks and settlements in the pavement developed.  These cracks covered the entire street width which necessitates total concrete pavement replacement on Meade Avenue once the construction activities of the 8-inch water and sewer mains are completed. Native soil conditions encountered during construction of the sewer main revealed heavy clay soil mixed with layers of cobbles.  These existing soil conditions necessitated trenches beyond normal boundaries, in addition to changing the trench shoring system.  Such unforseen conditions constitute a change in work efforts and therefore are considered extra work.

Similar conditions of poor soil, along with many cracks and settlements, were encountered on El Cerrito Drive between Madison Avenue and El Cajon Boulevard.  This section of El Cerrito Drive is asphalt paved and would require repaving to provide safe driving conditions to motorists.  Additional City forces work will be required due to the poor soil conditions and shall not exceed $204,000.

FISCAL IMPACT:
The total cost of this project is $2,097,130 of which $1,476,328 was previously authorized. Funding of $306,887.08 is available in Sewer Fund 41506, CIP-44-001.0, Annual Allocation - Sewer Main Replacement, and $313,914.92 is available in Water Fund 41500, CIP-73-083.0, Annual Allocation - Water Main Replacement, of which $572,523 is for Change Order No. 3, and $48,279 is for related project costs.

Authorizing the City Auditor and Comptroller to increase the Capital Improvements Program to increase the appropriation of $11,916,147 plus any accrued interest from Fund 39225, to the FY2002 Capital Improvements Program, to be utilized for the design, acquisition of property, construction and other costs;

Authorizing the City Manager to negotiate and execute a Supplemental Agreement with E.L. Yeager Construction, under the terms and conditions set forth in the First Amendment to Agreement for purposes of constructing the Project, CIP-52-463.0, upon certification by the Auditor and Comptroller of funds being available;
Authorizing the City Manager to execute a Ninth Amendment to Agreement with Boyle Engineering Corporation for professional engineering services for the Project, CIP-52-463.0, upon certification by the Auditor and Comptroller of funds being available;

Authorizing the expenditure of $298,523 for the Ninth Amendment to Agreement with Boyle Engineering Corporation for the Project, CIP-52-463.0, of which $128,647 is from Fund 39225, $47,301 from Fund 38977, and $122,575 from Fund 10515, upon certification by the Auditor and Comptroller of funds being available;

Authorizing the expenditure of an amount not to exceed $2,027,000 from Fund 39225 for the acquisition of property rights, appraisals, litigation, condemnation, labor title, escrow and miscellaneous costs for the Project, CIP-52-463.0, upon certification by the Auditor and Comptroller of funds being available;

Authorizing the expenditure of an amount not to exceed $9,760,500, of which $2,972,600 is from Fund 39225, and $6,787,900 is from Developers, as an in kind contribution for other related design costs and for construction of CIP-52-643.0, upon certification by the Auditor and Comptroller of funds being available;

Authorizing the City Manager to negotiate and execute a Facilities Benefit Assessment (FBA) Cash/Credit and Reimbursement Agreement, for costs associated with the project, which includes reimbursement of $11,916,147 contingent upon the Auditor and Comptroller first certifying that funds are available in the City Treasury;

Authorizing the City Auditor and Comptroller, upon advice from the administering department, to transfer excess funds, if any, to the appropriate reserves.

Subitem-B: (R-2002-1199)

Declaring that the information contained in Environmental Impact Report LDR-95-0099, certified by Resolution R-290286, adopted on June 16, 1998, has been reviewed and considered by Council and it is determined that no substantial changes or new information of substantial importance within the meaning of CEQA Guideline Section 15162 would warrant any additional environmental review in connection with the approval of the First Amendment to the Funding Agreement of the Project;

Directing the City Clerk to file a Notice of Determination (NOD) with the Clerk of the Board of Supervisors.

CITY MANAGER SUPPORTING INFORMATION:

In December 2000 the City Council approved the original Funding Agreement with the Torrey Highlands Developers to advance the funding for the extension of State Route 56 westerly and
constructing the eastern half of the Camino Ruiz Interchange. In order to expedite the construction of the project and in order to not delay the construction of the middle segment of State Route 56 which is scheduled to begin in July 2002, the original project has been split into separate sub-projects and there has also been increased design, right of way and construction costs which has made it necessary to amend the original Funding Agreement. Sub-projects have included the portion of Camino Ruiz between the on and off ramps (Segment F) and a soil nail retaining wall at the North East Quadrant of the Interchange which are both under construction and have been funded by Western Pacific Housing.

In addition, the construction for the freeway main lanes and ramps has been split into separate contracts to allow the grading, deep drainage facilities, sewer sleeves and main lane paving to be constructed by E.L. Yeager Construction while the current approval from City Council is sought to increase the construction expenditure limit and award the second supplemental contract to E.L. Yeager Construction to complete the remainder of the project. Since the limits of work of E.L. Yeager's current construction contract overlap with the limits of work to complete the project it is not possible to award the second supplemental contract to a contractor other than E.L. Yeager Construction without delaying the completion of the project and causing severe construction coordination problems.

**FISCAL IMPACT:**

The original Funding Agreement approved by City Council was for $9,404,340. With the approval of the First Amendment to the Funding Agreement, the new total obligation of the Torrey Highlands Developers will be $21,320,487.

ITEM-253: Notice of Pending Final Map Approval.

Notice is hereby given that the City Engineer has reviewed and will approve on this day the subdivision of land shown on that certain final map entitled “Park Place Condominiums”, (TM-40-0206), a copy of which is available for public viewing at the office of the San Diego City Clerk. Said project is located in the Centre City Community Plan Area, located between California St. and Kettner Boulevard, “G” Street and Harbor Drive in Council District 2. Specifically, the City Engineer has caused the map to be examined and has made the following findings:

(1) The map substantially conforms to the approved tentative map, and any approved alterations thereof and any conditions of approval imposed with said tentative map.

(2) The map complies with the provisions of the Subdivision Map Act and any local ordinances applicable at the time of approval of the tentative map.

(3) The map is technically correct.

Said map will be finalized and recorded unless a valid appeal is filed. Interested parties will have 10 calendar days from the date of this Council hearing to appeal the above findings of the City Engineer to the City Council. A valid appeal must be filed with the City Clerk no later than 2:00 p.m., 10 calendar days
from the date of this notice stating briefly which of the above findings made by the City Engineer was improper or incorrect and the basis for that conclusion. If you have questions about the approval findings or need additional information about the map or your appeal rights, please feel free to contact Deputy City Engineer Lee Hennes at (619) 446-5291.

NOTICED HEARINGS:

ITEM-330: Sharp Ambulatory Care Center Parking Garage.

Matter of approving, conditionally approving, modifying or denying a Planned Development Permit/Conditional Use Permit (PDP/CUP) to amend Conditional Use Permit CUP-88-1297 to allow construction of an approximately 196,598 square-foot six-level, five-story parking structure with rooftop heliport at the existing Sharp Health Care Hospital campus. The project site is located at 7901 Frost Street, and is zoned RS-1-7, within the Serra Mesa Community Plan Area. The parking structure would provide approximately 624 parking spaces. The project includes relocation of an existing ground-level heliport to the roof of the proposed parking structure.

(PDP/CUP-41-0408/Amending CUP-88-1297. Serra Mesa Community Plan area. District-6.)

CITY MANAGER'S RECOMMENDATION:

Adopt the resolution in subitem A; and adopt the resolution in subitem B to grant the permit:

Subitem-A: (R-2002-1239)

Adoption of a Resolution certifying that the information contained in Environmental Mitigated Negative Declaration, LDR-41-0408 has been completed in compliance with the California Environmental Quality Act of 1970 (California Public Resources Code section 21000 et seq.), as amended, and the State guidelines thereto (California Code of Regulations section 15000 et seq.), that the declaration reflects the independent judgment of the City of San Diego as Lead Agency and that the information contained in the report, together with any comments received during the public review process, has been reviewed and considered by this Council in connection with the approval of the land use actions for the Sharp ACC Parking Garage;

That the City Council finds that project revisions now mitigate potentially significant effects on the environment previously identified in the Initial Study and therefore, that the Mitigated Negative Declaration is approved;

That pursuant to California Public Resources Code section 21081.6, the City
Council adopts the Mitigation Monitoring and Reporting Program, or alterations to implement the changes to the project as required by this body in order to mitigate or avoid significant effects on the environment;

That the City Clerk is directed to file a Notice of Determination [NOD] with the Clerk of the Board of Supervisors for the County of San Diego regarding the above project.

Subitem-B: (R-2002-)

Adoption of a Resolution granting or denying Conditional Use/Planned Development Permit No. 41-0408 amending Conditional Use Permit CUP-88-1297, with appropriate findings to support Council action.

OTHER RECOMMENDATIONS:

Planning Commission on January 24, 2002 voted 4-0 to recommend approval of the project on the consent agenda. One Commissioner recused, and two were absent; no opposition.

Ayes: Garcia, Brown, Anderson, Lettieri
Recusing: Butler
Not present: Schultz, Stryker

The Serra Mesa Community Planning Group on July 19, 2001, voted 11-0-0 to recommend approval of the proposed project.

SUPPORTING INFORMATION:

This is a request for a Conditional Use Permit and Planned Development Permit to allow construction of a six level, 5-story parking structure with rooftop heliport at the existing Sharp Health Care Hospital campus, located at 7901 Frost Street, in the CO-1-2 zone of the Serra Mesa Community Plan area. The proposed structure would provide parking for 626 cars to serve the health care campus, including the new Ambulatory Care Center (ACC). The health care campus has been developed in accordance with existing CUP-88-1297, which amended CUP-88-0523. The campus currently includes the main hospital which has two towers (9 and 12 stories); the 6-story Mary Birch Women’s Center; a 5-story parking structure; a single story Rehabilitation Center; a ground-level heliport; and a new 4-story Ambulatory Care Center (ACC) currently under construction. Because the existing CUP-88-1297 does not include provision for a second parking structure on the campus, and the proposed second parking structure could not be found to be in substantial conformance with CUP-88-1297, this project amending CUP-88-1297 has been proposed. A Planned Development Permit is requested to allow deviation from the maximum height limit of the underlying zone (60 ft.). The maximum height of the proposed structure would be approximately 95 feet as measured from the top of the wind sock for the heliport, which extends 15 feet above the top of the elevator shaft. Included in this project is the relocation of the existing ground level heliport to the top of the proposed parking structure. Due to the relocation of the heliport, the decision maker for the project is City Council in accordance with Process 5. The proposed project is in compliance with all applicable regulations of the Land
TRAFFIC IMPACT:

The proposed project is a parking structure and it would not generate any additional trips. The parking structure would provide parking for existing and planned health care facilities on the Sharp Health Care campus. Therefore, the project would have no impact on traffic in the area. Since the project does not generate additional trips, traffic information in the form of a traffic table is not being provided.

FISCAL IMPACT:

None with this action. All Development Services Department processing costs are recovered by a deposit account funded by the applicant.

Ewell/Christiansen/VG

LEGAL DESCRIPTION:

The proposed project is located at 7901 Frost Street, at the southeast corner of Health Center Drive and Frost Street within the Serra Mesa Community Planning Area.
