Article 3: Police Regulated Occupations and Businesses

Division 37: Police Regulated Burglary and Panic Alarm Systems

(Retitled from “Burglary, Robbery and Emergency Alarm Systems” to “Police Regulated Burglary and Panic Alarm Systems” on 5-5-2017 by O-20819 N.S.; effective 6-4-2017.)

§33.3701 Purpose

The Council encourages citizens to take proactive safeguards to protect life and property from harm, damage, or theft, and recognizes that alarm systems help achieve this goal. The Council further recognizes the vast majority of responses to alarm systems by law enforcement are false alarms. Most false alarms are the result of improper maintenance or careless use of an alarm system. Police officers responding to false alarms are not available to carry out other law enforcement duties. The Council finds that excessive false alarms unduly burden law enforcement resources. In the interest of using law enforcement resources most effectively and efficiently, the number of false alarms can and must be reduced. The purpose of this Division is to preserve public health, safety, and welfare by providing regulation over alarm systems. It is also the purpose of this Division to reduce annoyances associated with false alarms, to establish reasonable expectations of alarm businesses and alarm users, to encourage alarm users to maintain their alarm systems in good working condition and to use them properly, and to ensure that alarm users are held responsible for their alarm systems.

(“Purpose” added 5-5-2017 by O-20819 N.S.; effective 6-4-2017. Former Section 33.3701 “Definitions” renumbered to Section 33.3702.)

It does not include activations caused by extreme weather conditions, telephone line problems, or any other extraordinary factors over which the alarm business, alarm agent, or alarm user has no direct or indirect control. (c) The hearing will be set no more than 30 business days from the date of receipt of the request, unless otherwise agreed to by the parties.

(d) The hearing is an informal administrative review to determine the validity of the notice of violation or assessed fine or penalty fee. Formal rules of evidence and discovery do not apply.

(f) There shall be a rebuttable presumption affecting the burden of producing evidence that an alarm activation is a false alarm if the responding law enforcement officers did not find evidence that an emergency situation triggered the alarm. An alarm user has the burden to present evidence sufficient to negate the presumption.

(g) After an evaluation of the evidence presented, the Chief of Police may amend an alarm user’s records to indicate that an alarm activation was not a false alarm or did not generate a call for service, and waive, reverse, or modify any fine or penalty fee.

(h) The Chief of Police will issue a written decision within 15 business days after completing the hearing. The decision shall be final.

An alarm system permit issued before June 4, 2017 for a two-year period shall remain valid until its stated expiration date, unless it is revoked. For the first false alarm after June 4, 2017, a warning letter will be issued referencing application of section 33.3717 to future false alarms. Only one warning letter will be issued for a two-year period. The false alarm that resulted in the issuance of a warning letter will not constitute a violation under section 33.3717(c). After the issuance of a warning letter, section 33.3717 shall apply to existing two-year permits as follows:

(a) The first false alarm after the issuance of a warning, will be treated as the first false alarm under section 33.3717(c)(1).

(b) Additional false alarms will constitute violations subject to penalties as set forth in section 33.3717(c).
(c) The one-year anniversary date after the issuance of the two-year alarm system permit begins a new twelve-month period for accrual of violations under section 33.3717(c). This new twelve-month period is a new violation period.
(d) During the new violation period, the first false alarm will be treated as the first false alarm under section 33.3717(c)(1).

This section shall remain in effect until June 4, 2019, at which time this section shall automatically be repealed.
