Article 3: Supplemental Development Regulations

Division 4: Planned Development Permit Regulations
(Added 12-9-1997 by O-18451 N.S.)

§143.0401 Purpose of Planned Development Permit Regulations

The purpose of these regulations is to provide flexibility in the application of development regulations for projects where strict application of the base zone development regulations would restrict design options and result in a less desirable project. The intent of the Planned Development Permit regulations is to accommodate, to the greatest extent possible, an equitable balance of development types, intensities, styles, site constraints, project amenities, public improvements, and community and City benefits. The regulations in this division provide the standards and guidelines by which applications for Planned Development Permits will be evaluated.
(Added 12-9-1997 by O-18451 N.S.; effective 1-1-2000.)

§143.0402 When Planned Development Permit Regulations Apply

This Division applies to all development proposals for which a Planned Development Permit is requested, in accordance with Table 143-04A.

Footnotes for Table 143-04A

1. The Planned Development Permit shall be decided in accordance with the highest level decision process that could have applied to the development.

2. A Planned Development Permit may not be requested for a single dwelling unit on an individual, single dwelling unit lot.

3. A development that is affordable housing, an in-fill project, and/or a sustainable building as described in Section 143.0915 may be permitted with a Neighborhood Development Permit in accordance with Process Two subject to all applicable regulations identified in Table 143-04A.

4. Rural cluster development with increased density is not available to properties within the Del Mar Mesa Specific Plan area. Refer to the Del Mar Mesa Specific Plan adopted on May 27, 1997, by O-18337 for the applicable development regulations.

5. Residential development and residential mixed-use development that proposes residential uses and/or density that complies with the applicable land use plan but not the underlying base zone may be permitted with a construction permit decided in accordance with Process One subject to Section 131.0123.

(Amended 1-9-2001 by O-18910 N.S.; effective 8-8-2001.)
(Amended 4-8-2008 by O-19734 N.S; effective 5-8-2008.)
(Amended 8-4-2011 by O-20081 N.S.; effective 10-6-2011.)
(Amended 4-5-2016 by O-20634 N.S.; effective 5-5-2016.)
(Amended 8-9-2019 by O-21114 N.S.; effective 9-8-2019.)
(Amended 10-30-2020 by O-21254 N.S.; effective 11-29-2020.)

[Editors Note: Amendments as adopted by O-21254 N.S. will not apply within the Coastal Overlay Zone until the California Coastal Commission certifies it as a Local Coastal Program Amendment.

§143.0403  Permitted Uses with a Planned Development Permit

The following regulations apply to all Planned Development Permits.

(a) The following uses may be permitted within any Planned Development.

(1) Any use permitted in the base zone or the applicable land use plan. Unlawful uses on any portion of the premises shall be terminated or removed as a requirement of the Planned Development Permit.

(2) Accessory uses associated with any permitted use may be permitted as long as the accessory use serves only the occupants and guests of the proposed development.

(3) Uses permitted by Neighborhood Use Permit or Conditional Use Permit within the base zone. A separate use permit shall accompany, and will be processed concurrently with, an application for a Planned Development Permit. Conditions relating to the particular use will be included in the applicable use permit and may also be referenced in the Planned Development Permit. An amendment to a use permit need not be accompanied by an amendment to the Planned Development Permit unless the amendment involves exterior modifications to the premises that are not in substantial conformance with the approved Planned Development Permit.

(b) Changes of use on a premises do not require an amendment of the approved Planned Development Permit, if the proposed use is permitted in the applicable zone and complies with Sections 126.0112 or 126.0113.

(c) After construction of a development in accordance with a Planned Development Permit proposed uses that require a Neighborhood Use Permit or Conditional Use Permit may be permitted without an amendment to the Planned Development Permit unless the amendment involves exterior modifications to the premises that are not in substantial conformance with the approved Planned Development Permit.

(Added 12-9-1997 by O-18451 N.S.; effective 1-1-2000.)
(Amended 1-8-2020 by O-21161 N.S.; effective 2-9-2020.)
§143.0410 General Development Regulations for Planned Development Permits

(a) Deviations

(1) The base zone development regulations apply to all developments except to the extent that deviations are included as part of the approved Planned Development Permit.

(2) In accordance with the purpose of this division, deviations from the applicable base zone development regulations may be requested in order to provide flexibility in achieving a zone-equivalent project design that will be consistent with the intent of the base zone. Significant deviations from the base zone regulations that are not consistent with the purpose of this division require a variance in conjunction with the approval of the Planned Development Permit.

(3) A Planned Development Permit may not be used to request deviations from any of the following regulations:

   (A) Maximum building height of 30 feet for the area in the Coastal Height Limit Overlay Zone as identified in Section 132.0502;

   (B) Floor area ratio for the entire premises except as permitted in the Kearny Mesa Community Plan;

   (C) Residential density unless an affordable housing density bonus is obtained in accordance with Chapter 14, Article 3, Division 7 (Affordable Housing Regulations);

   (D) Residential density except as provided in Section 143.0402;

   (E) Applicable supplemental regulations identified in Table 143-04A;

   (F) The regulations in Chapter 14, Article 3, Division 1 (Environmentally Sensitive Lands Regulations); and

   (G) The regulations in Chapter 14, Article 3, Division 2 (Historical Resources Regulations).
(b) Density and Intensity

(1) The number of dwelling units or total gross floor area to be built on the premises shall not exceed that set forth by the applicable zone and the applicable land use plan except as permitted by 143.0410(a)(3)(D), and shall be based on the area of the entire premises. The dwelling units or gross floor area may be distributed without regard to the proposed lot boundaries.

(2) If the premises is located in two or more zones, the maximum number of dwelling units or the gross floor area permitted on the premises shall be the sum of the dwelling units or the gross floor area permitted in each of the zones and may be distributed without regard to the zone boundaries.

(3) If the Planned Development Permit includes property that is shown as part of a designated open space system in the applicable land use plan, and is accepted by the City as dedicated open space, that portion of the property may be included in the calculation of the overall project density by using the density of the base zone.

(4) The areas of the premises that are designated for public or private streets may not be utilized in the calculation of maximum density.

(5) The areas of the premises that are designated for private drives may be used in the calculation of maximum density.

(c) Public Transportation

Access to or improvements for public transportation shall be provided as required by the Metropolitan Transit Development Board.

(d) Parking and Access

(1) Off-street parking spaces shall be sufficient in size and quantity to accommodate all of the proposed uses on the premises.

(2) Parking areas and access drives should be located to avoid conflicts with internal pedestrian circulation, street systems, and adjacent properties.
(3) The circulation plan shall indicate the location of vehicular and pedestrian access on the site between the *public right-of-way*, building entrances, sidewalks, public transit facilities, and loading/service facilities. Pedestrian access to the surrounding *streets* should be maximized.

(e) Landscaping

(1) All landscaping shall comply with requirements of Chapter 14, Article 2, Division 4 (Landscape Regulations).

(2) The pattern of landscaping and the materials used in the *development* should be generally consistent in species, quantity, and size with that of the surrounding area unless otherwise specified in the applicable *land use plan*.

(f) *Fences* and Walls

*Fences* and walls on individual *lots* should be located within the developed portion of the *premises* and should not be located in a manner that will encroach into or enclose or isolate portions of the *premises* designated to be preserved as open space.

(g) Signs

A preliminary concept *sign* program, including criteria for the location and design of all *signs* to be used on the *premises*, shall be submitted. All *signs* shall comply with Chapter 14, Article 2, Division 12 (Sign Regulations).

(h) Accessory Structures

(1) The *development* may include accessory commercial, office, utility, maintenance, and recreational facilities provided the facilities are limited in size, use, and capacity to serve only the needs of the occupants and guests of the *development*.

(2) *Accessory structures*, including trash enclosures, shall be architecturally compatible in style and building materials with the primary buildings on the *premises*. 
(i) Shadow Plan

When it is determined that the structures or landscaping within a proposed development may have an impact on an adjacent property’s access to solar exposure, a shadow plan will be required to ensure that potential impacts will be minimized.

(j) Criteria For Development Design

The following design criteria will be used to evaluate proposed developments in conjunction with the required findings.

1. The overall development design should be comprehensive and should demonstrate the relationships of the proposed development on-site with existing development off-site.

2. The scale of the project should be consistent with the neighborhood scale as represented by the dominant development pattern in the surrounding area or as otherwise specified in the applicable land use plan.

3. Buildings should avoid an overwhelming or dominating appearance as compared to adjacent structures and development patterns. Abrupt differences in scale between large commercial buildings and adjacent residential areas should be avoided. Instead, gradual transitions in building scale should be incorporated.

4. Larger structures should be designed to reduce actual or apparent bulk. This can be achieved by using pitched roof designs, separating large surface masses through changes in exterior treatment, or other architectural techniques.

5. Buildings, structures, and facilities on the premises should be well integrated into, oriented towards, and related to, the topographic and natural features of the site.

6. Proposed developments should avoid repetitious development patterns that are inconsistent with the goals of the applicable land use plan.

7. To the greatest extent possible, landscaping should be used to soften the appearance of blank walls and building edges and enhance the pedestrian scale of the development.
(8) Elements such as street trees, curbside landscaping, varied *setbacks*, and enhanced paving should be used to enhance the visual appearance of the *development*.

(9) Roof forms should be consistent in material, design, and appearance with existing *structures* in the surrounding neighborhood.

(10) Plant materials and other design features should be used to define and enhance the appearance of roof spaces, especially flat roofs that are visible from higher elevations.

(11) Building material and color palettes should be consistent with applicable guidelines in the applicable *land use plan*, if provided.

(Amended 1-9-2001 by O-18910 N.S.; effective 8-8-2001.)
(Amended 3-1-2006 by O-19467 N.S.; effective 8-10-2006.)

(Amended 3-22-2018 by O-20916 N.S.; effective 4-21-2018.)
(Amended 10-30-2020 by O-21254 N.S.; effective 11-29-2020.)

Section 143.0420 Supplemental Planned Development Permit Regulations for Residential Development

In addition to the general regulations for all Planned Development Permits, the following supplemental regulations apply to all Planned Development Permits that include residential *development*, when identified in Table 143-04A:

(a) Open Space

(1) For proposed *development* within the zones shown in the first column in Table 143-04B, the open space requirements shown in the second and third columns apply.

</table>
Footnotes for Table 143-04B

1  Total open space includes usable open space plus any other areas to be left as open space.

2  Usable open space includes private exterior open space and common open space that is functional to residents.

3  For open space requirements for residential rural cluster *development* with increased *density* in the AR-1-1 and OR-1-2 zones within *Proposition A Lands*, see Section 143.0450(c).

2)  The minimum required open space shall be based on the total number of dwelling units on the entire *premises* and may be located without regard to existing or proposed *lot* lines.

3)  If the *premises* is located in two or more zones, the amount of open space required in the Planned *Development* shall be the sum of the open space required in each of the zones applied to the dwelling units at the same percentage that the site area is occupied by each zone. The open space may be located without regard to the zone boundaries.

4)  The usable open space required in Table 143-04B, shall be generally contiguous and moderately level, with an overall gradient not exceeding 10 percent. Usable open space shall not include land occupied by buildings, *structures*, *streets*, driveways, or parking areas but may include outdoor recreational facilities.

5)  All common open space on the project site, including recreational facilities, shall be readily accessible to all occupants and should, wherever possible, be physically connected to other common open space areas on the *premises*.

6)  If an Affordable Housing Density Bonus Agreement or a Density Bonus and Affordable Housing Deviation has been approved for the *development*, the open space area requirement shall be the total of the following:

   (A)  Open space based on the zone in which the property is located, multiplied by the number of dwelling units permitted in that zone; plus

   (B)  Open space based on the next more dense residential zone, multiplied by the number of dwelling units in excess of the number permitted in the zones in which the property is located.
(b) Recreational Facilities in *Multiple Dwelling Unit Zones*:

Proposed *multiple dwelling unit developments* exceeding 10 dwelling units shall include, within the common open space, at least one of the following recreational amenities: a tot lot, a barbecue area with picnic tables and shade structure, a sport court or field, a swimming pool, or a golf course.

(c) *Fences* and Walls

*Fences* or walls that are generally parallel to the public right-of-way and that exceed 100 feet in length shall be articulated with vertical elements spaced at no more than 25 feet on center. The vertical elements shall be made an integral part of the *fence* or wall and shall be a minimum of 12 inches wide.

(d) Building Coverage

Building coverage shall not exceed 60 percent of the site area.

*(Added 12-9-1997 by O-18451 N.S.; effective 1-1-2000.)*

*(Amended 4-8-2008 by O-19734 N.S; effective 5-8-2008.)*

§143.0430 **Supplemental Planned Development Permit Regulations for Residential Development in RS Zones in Urbanized Communities**

In addition to the general regulations for all Planned Development Permits and supplemental regulations for residential developments, developments requesting a Planned Development Permit in the *Urbanized Communities* in the RS Zones or in areas combining RS and any other zone permitting residential use are subject to the following regulations:

(a) *Density*

(1) *Density* may not exceed the average *density* of all similarly zoned single dwelling unit properties within a 500-foot radius of the site.

(2) For developments that combine land zoned for both single dwelling unit and multiple dwelling unit use, that portion of the property zoned for single dwelling unit use shall not exceed the *density* for that area as calculated by the single dwelling unit zone, the land use designation of the applicable land use plan, or the 500-foot radius analysis whichever is less.
(3) For density purposes, vacant or unimproved legal lots zoned for single dwelling unit use within the 500-foot radius analysis area shall be calculated for one dwelling unit.

(4) Similarly zoned properties approved or developed pursuant to discretionary permits before October 16, 1989, shall be excluded from the calculation of average density.

(b) Bulk and Scale

(1) Building mass and bulk shall be similar to the surrounding neighborhood as evaluated within a 500-foot radius of the proposed development.

(2) Buildings may vary by up to 50 percent of the average floor area ratio of the existing neighborhood for individual lots, but may not exceed the maximum floor area ratio permitted by the base zone for the entire premises.

(3) Buildings may vary on the maximum diagonal plan dimension.

(4) The overriding objective is that the project average of bulk and scale be consistent with the existing surrounding neighborhood as evaluated within a 500-foot radius of the proposed development.

(c) Infill Design

Development design shall incorporate architectural elements that have a pronounced importance in establishing compatible infill design.

(d) Deviations

Deviations from applicable zone development regulations permitted in accordance with Section 143.0410(a), shall be permitted only if it is shown that similar situations exist within the surrounding neighborhood or that the modifications to the regulations are beneficial to the neighborhood because of unique circumstances pertaining to the subject property.

(Added 12-9-1997 by O-18451 N.S.; effective 1-1-2000.)
(Amended 4-8-2008 by O-19734 N.S; effective 5-8-2008.)
§143.0440 Supplemental Planned Development Permit Regulations for Residential Rural Cluster Development in the AR and OR Zones

In addition to the general regulations for all Planned Development Permits and supplemental regulations for residential developments, the following regulations apply to all residential Planned Development Permits for rural cluster developments in the AR and OR zones:

(a) Density

(1) Within the AR zones, the maximum residential density permitted shall be as specified in the applicable zone, with the units clustered to preserve the remainder of the premises in its natural state until and if complete development at urban densities is ever deemed appropriate. Within Proposition A Lands, the reservation of future development potential will require the use of covenants, conditions, restrictions, or other mechanisms as determined by the City Manager to insure that the undeveloped portion of the property remains undeveloped until the Proposition A Lands are shifted to a Planned Urbanized Community.

(2) Within the OR zones, the maximum residential density permitted shall be as specified in the applicable zone, with the units clustered and located with the allowable development area in accordance with Section 131.0250. The remainder of the premises shall remain in its natural state as a condition of the Planned Development Permit approval.

(3) Conditions and requirements that are consistent with the applicable zone corresponding to the density of the development in the clustered portion of the premises may be imposed on the planned development.

(4) Within Proposition A Lands and outside the Coastal Overlay Zone, the area of a golf course meeting the criteria of Section 143.0440(c)(4) may be used in the calculation of total permitted residential density.

(b) Subdivision Requirement

With a Planned Development Permit, a subdivision is not required for clustered dwelling units on a single existing lot, unless subsequent use of the dwelling units would require a subdivision pursuant to the Subdivision Map Act.
(c) Open Space Requirement

(1) The total open space required for the premises shall be based on Table 143-04B. The required open space may be distributed throughout the proposed development and need not be provided on each lot.

(2) Any usable open space provided shall be located within or adjacent to the clustered development portion of the premises.

(3) For developments in the OR Zones, the remainder of the premises not being developed shall be offered to the City for dedication as park land.

(4) Recreational facilities shall be designed to serve only the occupants and guests of the development. However, within Proposition A Lands and outside the Coastal Overlay Zone, golf courses open to the public and their customary incidental, supportive facilities (excluding lodging facilities) need not be restricted provided that a permanent and irrevocable open space easement is established that covers the area of the golf course. A golf course open to the public means a public golf course or a private golf course on public or private land that is open to the public on a daily fee basis or that offers memberships to the public.

(5) Within Proposition A Lands and outside the Coastal Overlay Zone, the area of a golf course meeting the criteria of Section 143.0440(c)(4) may be used in the calculation of total required open space.

(Amended 4-8-2008 by O-19734 N.S; effective 5-8-2008.)
§143.0450  Supplemental Planned Development Permit Regulations for Residential Rural Cluster Development with Increased Density

In addition to the general regulations for all Planned Development Permits and supplemental regulations for residential developments, the following regulations apply to all residential rural cluster developments requesting increased density that are located in the AR-1-1 and OR-1-2 zones within Proposition A Lands. Approval of a proposed development in accordance with this section shall require the findings in Section 126.0404(b) to be made.

(a)  Density

(1)  Within the AR-1-1 and OR-1-2 zones within Proposition A Lands, except within the Del Mar Mesa Specific Plan adopted on May 27, 1997 by Ordinance No. O-18337, the maximum permitted density with the increased density rural cluster alternative is one dwelling unit per 4 acres with the dwelling units clustered. The remainder of the premises where no development is proposed shall be maintained in its natural state with no future development potential. The utilization of this increased density alternative shall require the provision of housing within the premises, affordable to low or very low income families, in accordance with Section 143.0450(d). For development within the Del Mar Mesa Specific Plan area the development regulations identified in the Del Mar Mesa Specific Plan adopted on May 27, 1997 by Ordinance O-18337 apply.

(2)  Conditions and requirements may be imposed on the planned development that are consistent with the base zone corresponding to the density of the development in the clustered portion of the premises.

(3)  Except within the Coastal Overlay Zone, the area of a golf course meeting the criteria of Section 143.0450(c)(6) may be used in the calculation of total permitted residential density.

(b)  Subdivision Requirement

With a Planned Development Permit, a subdivision is not required for clustered dwelling units on a single, existing lot.
(c) Open Space Requirements

(1) The total open space required for the premises is 2 acres per dwelling unit. There is no usable open space requirement. The required open space may be distributed throughout the proposed development and need not be provided on each lot.

(2) Any usable open space provided shall be located within or adjacent to the clustered development portion of the premises.

(3) The increased density rural cluster alternative will require that the Planned Development use covenants, conditions, and restrictions or other mechanisms, including dedication, that are acceptable to the City Manager to insure that the undeveloped portion of the premises remains undeveloped in perpetuity.

(4) Increased density rural cluster developments shall be designed to incorporate an open space element that visually or physically connects to a planned or existing open space system or an environmental resource corridor as identified in the applicable land use plan. Rural cluster developments that incorporate an open space element that effectively achieves a physical or visual connection to a planned or existing open space system or an environmental resource corridor may deviate from the open space requirements in Table 143-04B and Section 143.0450(c)(1).

(5) Increased density rural cluster developments that are not visually or physically connected to a planned or existing open space system or an environmental resource corridor shall incorporate a design that maximizes open space opportunities consistent with the open space requirements of the applicable land use plan.

(6) Recreational facilities shall be designed to serve only the occupants and guests of the planned development. However, within Proposition A Lands and outside the Coastal Overlay Zone, golf courses open to the public and their customary incidental, supportive facilities (excluding lodging facilities) need not be restricted provided that a permanent and irrevocable open space easement is established that covers the area of the golf course. A golf course open to the public shall mean a public golf course or a private golf course on public or private land that is open to the public on a daily fee basis or that offers memberships to the public.
(7) Except within the Coastal Overlay Zone, the area of a golf course meeting the criteria of Section 143.0450(c)(6) may be used in the calculation of total required open space.

(d) Affordable Housing Requirement for Increased *Density* Rural Cluster Development:

In the AR-1-1 and OR-1-2 zones within *Proposition A Lands* Planned Developments using the increased *density* rural cluster alternative are required to provide housing units within the *development*, that are affordable to *low income families*, as certified by the San Diego Housing Commission.

(1) The affordable housing obligation may be fulfilled by one of the following:

(A) A set-aside of no less than 20 percent of the units for occupancy by, and at rates affordable to, *families* earning no more than 65 percent of the median area income, adjusted for *family size*; or

(B) A *dedication* of developable land of equivalent value.

(2) Affordable housing shall be appropriately designed and integrated into the overall *development* plan.

(3) *Development* incentives available through government programs, including a *density* bonus in accordance with Chapter 14, Article 3, Division 7 (Affordable Housing Regulations), where appropriate, may be used to meet all or a portion of this obligation.

(4) Units restricted under this section shall remain affordable for the remaining life of the housing unit, which is presumed to be a minimum of 55 years.

(e) Subarea Plan Requirement in the North City Future Urbanizing Area
(1) Within the North City Future Urbanizing Area that is within Proposition A Lands, a subarea plan shall be prepared pursuant to the General Plan. The subarea plan shall be developed consistent with the North City Future Urbanizing Area Framework Plan, as approved by the California Coastal Commission on May 14, 1993. Alternatively, the applicant must demonstrate that, at a minimum, all public facilities within the subarea (as designated by the General Plan) have been sited; a Purchase Agreement for the public facility sites has been completed; mixed use centers within the subarea have been sited; the street system to access the mixed use centers and public facilities has been aligned; a financing plan for the project area, subarea, or larger planning area has been completed; and open space boundaries have been refined if the project deviates from the MHPA boundaries shown in the General Plan.

(2) Except within the Coastal Overlay Zone, Section 143.0450(e)(1) shall not apply to any project for which an application was deemed complete on or before December 10, 1990, and which includes a golf course that is open to the public provided, however, that any such project shall fully participate in the Public Facilities Financing Plan, Interim Fees, and the school Facilities Master Plan, and that a development agreement shall be executed for the project.

(Amended 1-9-2001 by O-18910 N.S.; effective 8-8-2001.)
(Amended 4-8-2008 by O-19734 N.S; effective 5-8-2008.)
(Amended 3-22-2018 by O-20916 N.S.; effective 4-21-2018.)
(Amended 2-1-2021 by O-21288 N.S.; effective 3-3-2021.)

[Editors Note: Amendments as adopted by O-21288 N.S. will not apply within the Coastal Overlay Zone until the California Coastal Commission certifies it as a Local Coastal Program Amendment. §143.0455  Supplemental Planned Development Permit Regulations for Multiple Dwelling Unit Residential Development with Increased Density per the Adopted Land Use Plan

In addition to the general regulations for all Planned Development Permits in Section 143.0410(j)(5) through (11), the following regulations apply to multiple dwelling unit development that requests approval of increased density where the land use plan expressly allows for increased density with approval of a Planned Development Permit. It is the intent of these regulations to provide increased density in pedestrian-friendly development that is consistent with the planned character of the neighborhood as specified in the land use plan.

(a)  Density

   (1)  The minimum and maximum density for utilization of the increased density provision in Section 143.0455 shall be as specified in the adopted land use plan and shall not require processing of a deviation.

   (2)  Utilization of this increased density alternative per the adopted land use plan shall not preclude the use of the state density bonus program, where applicable.

(b)  The relationship of the proposed development to the public right-of-way and neighboring property shall be addressed as follows:

   (1)  The development shall provide visually interesting building articulation that maintains a sense of scale and transition to buildings lower in height and to the adjacent public right-of-way by incorporating the following:

      (A)  Offsetting wall planes, openings, projections, recesses and other building details.

      (B)  Varied building rooflines.

      (C)  One and two story building components with upper-story step backs at the third floor and above.

      (D)  Building facades that include a main entry and other pedestrian-oriented architectural features such as windows, balconies, trellises, wing walls (attached to the building), garden walls (free standing), porches, fencing, and arbors.
(2) Off-street parking spaces shall be located behind the building façade where possible, and shall be provided with access to an alley where available.

(3) The adjacent sidewalk, curb, and gutter shall be provided to City standards, and shall include all improvements necessary to bring existing public right-of-way conditions to current standards. Existing curb cuts that exceed current standards shall be removed or reduced to not exceed the maximum dimension identified in Section 142.0560.

("Supplemental Planned Development Permit Regulations for Multiple Dwelling Unit Residential Development with Increased Density per the Adopted Land Use Plan" added 4-5-2016 by O-20634 N.S.; effective 5-5-2016.)

(Amended 10-30-2020 by O-21254 N.S.; effective 11-29-2020.)

[Editors Note: Amendments as adopted by O-21254 N.S. will not apply within the Coastal Overlay Zone until the California Coastal Commission certifies it as a Local Coastal Program Amendment.

§143.0460 Supplemental Planned Development Permit Regulations for Commercial and Industrial Development

In addition to the general regulations for all Planned Development Permits, the following supplemental regulations shall apply to all commercial and industrial developments:

(a) Accessory Structures

The proposed development may include accessory commercial, office, utility, maintenance, and recreational facilities provided these facilities are limited in size, use, and capacity to serve only the occupants and guests of the development.

(b) Maximum Floor Area Ratio

On an individual premises, any structure may exceed the permitted floor area ratio provided the total floor area ratio for the entire development does not exceed that permitted by the applicable zone.
(c) **Ground Floor Occupancy**

For commercial *development* within commercial zones that permit retail uses, at least 50 percent of all gross ground *floor* area or principal pedestrian level area shall be used for retail sales and commercial services.

(d) **Fences and Walls**

*Fences* and walls that are generally parallel to the public right-of-way and exceed 150 feet in length shall be articulated with vertical elements spaced at no more than 50 feet on center. These vertical elements shall be a minimum of 12 inches wide.

(e) **Outdoor Amenities**

(1) Industrial *developments* should include outdoor eating or recreation areas available to all employees of the *premises*.

(2) Commercial *developments* should include public open areas or plazas that are accessible to the general public.

(f) **Parking and Access**

(1) No more than 75 percent of all required parking on the site should be located between the *public right-of-way* fronting the property and the *structure* on the site located closest to the *public right-of-way*.

(2) No vehicle parking aisles should end without providing an area in which vehicles may turn around or providing vehicular access to an adjacent driveway or *public right-of-way*, unless otherwise determined appropriate by the City Manager.

*(Added 12-9-1997 by O-18451 N.S.; effective 1-1-2000.)*
§143.0465  Supplemental Planned Development Permit Regulations for Planned Development Permits Recommended by a Land Use Plan

Within land use plans that recommend a Planned Development Permit in conjunction with any other discretionary action, and when no deviations from the applicable zone regulations are requested, the proposed development shall be subject to all development regulations of the applicable zone.

When any deviation is requested, the proposed development is subject to Section 143.0410 and Section 143.0420 or Section 143.0460, as appropriate for the type of development proposed.

(Added 12-9-1997 by O-18451 N.S.; effective 1-1-2000.)

§143.0473  Maintenance Requirements for Planned Development Permits

All approved Planned Development Permits must be maintained in compliance with the following regulations:

(a) All developments shall be constructed and maintained in accordance with the approved plans and conditions contained within the approved Planned Development Permit, except as provided in Sections 126.0112 or 126.0113.

(b) If a proposed development includes open areas or recreational facilities to be used by the residents or employees of the development, the approved permit shall include a plan for the preservation of the common elements of the property that is acceptable to the City Manager.

(Added 12-9-1997 by O-18451 N.S.; effective 1-1-2000.)

(Amended 1-8-2020 by O-21161 N.S.; effective 2-9-2020.)
§143.0475 Phased Planned Development Permits

Construction of developments requesting a Planned Development Permit may be phased subject to the following regulations pertaining to each phase of development.

(a) Where construction pursuant to a Planned Development Permit is to be phased over a period of time, plans corresponding to each phase shall be provided by the applicant at the time of Planned Development Permit submittal and shall include a proposed construction schedule and an illustration of the various phases of development.

(b) The plans corresponding to each phase shall clearly delineate all fundamental project elements integral to implementation of that particular phase, including landscaping, open space, parking, and recreational facilities. Each phase must assure that the provision of fundamental project elements will correspond with the demand to provide the associated site facilities and improvements necessary to support the density/intensity of each phase of development.

(c) The phasing program shall address the interim use of all areas where development will occur at a later date, including identification of the interim landscape and irrigation measures to be used to assure that portions of the site that may be graded or disturbed in the initial phase of project implementation but not be developed until a later phase, will be adequately mitigated.

(d) Where construction pursuant to a Planned Development Permit is to be phased over a predetermined period, the phasing program shall be based upon the projected population growth and availability of public facilities of the designated economic support area.

(Added 12-9-1997 by O-18451 N.S.; effective 1-1-2000.)
§143.0480 Master Planned Development Permit Criteria

(a) A Master Planned Development Permit may be processed for any proposed development that will comply with the primary and supplemental regulations of this division and proposes to incorporate conceptual development criteria for portions of the premises intended for future or phased development. Development criteria for the Master Planned Development Permit shall include standards, in text and graphic form, for the following project elements, which would be applicable over the entire Master Planned Development Permit area at the time of submittal and would become effective upon recordation of the Master Planned Development Permit.

1. Conceptual site plan indicating the location of all proposed lots, building pads, streets, driveways, grading areas, landform alteration quantities, and existing and proposed public facilities.

2. Landscaping that complies with Chapter 14, Article 2, Division 4.

3. Parking and relevant design criteria to provide adequate parking facilities, configurations, and dimensions pursuant to requirements of Chapter 14, Article 2, Division 5 (Parking Regulations).

4. Building orientation requirements of the applicable Planned Development Permit primary and supplemental regulations.

5. Public transportation facilities consistent with adopted plans and programs of the Metropolitan Transit Development Board.

6. Recreational facilities.

7. Traffic and pedestrian circulation plans.

8. Conceptual plans for and/or descriptions of structural designs, building materials, architectural themes, criteria to achieve minimum articulation, and measures to achieve compatibility with existing and future development on the site.

9. A site density transfer chart and corresponding information to accurately reflect and record the subsequent transfer of units or gross floor area throughout the development.
(b) Where specific site or building plans may not be included for any portion of the development at the time of approval of a Master Planned Development Permit, subsequent phases of development to include these portions of the Master Permit area will be required to demonstrate compliance with the criteria established by the applicable guidelines of this division.

(c) Unless otherwise specified in the Planned Development Permit, an evaluation of subsequent development proposals’ conformance with the minimum standards of the Master Planned Development Permit shall be performed by the City Manager in accordance with the substantial conformance review process in Section 126.0112.

(d) If the proposed development or elements of the proposed development are to be phased over a period of time, the applicant must provide the City Manager with information and criteria relevant to project compliance with Section 143.0475 before approval of the Master Planned Development Permit.

(Added 12-9-1997 by O-18451 N.S.; effective 1-1-2000.)
