§143.0717 Required Replacement of Affordable Units

(a) An applicant is ineligible for a density bonus or any incentive under this Division if the property on which the development is proposed contains, or during the five years preceding the application, contained, rental dwelling units that have had the rent restricted by law or covenant to persons and families of low income, very low income, or moderate income, or have been occupied by persons and families of low income, very low income, or moderate income, unless the proposed development replaces the affordable dwelling units, and either:

(1) Provides affordable dwelling units at the percentages set forth in Section 143.0720(i) (inclusive of the replacement dwelling units), or

(2) Provides all of the dwelling units as affordable to low income, very low income, or moderate income households, excluding any manager’s unit(s).

(b) The number and type of required replacement dwelling units shall be determined as follows:

(1) For a development containing any occupied dwelling units, the development must contain at least the same number of replacement dwelling units, of equivalent size and bedrooms, and must be made affordable to and occupied by persons and families in the same or a lower income category as the occupied dwelling units. For unoccupied dwelling units in the development, the replacement dwelling units shall be made affordable to and occupied by persons and families in the same or lower income category as the last household in occupancy. If the income category of the last household is unknown, it is rebuttably presumed that the dwelling units were occupied by lower income renter households in the same proportion of lower income renter households to all renter households within the City of San Diego, as determined by the most recently available data from the United States Department of Housing and Urban Development’s Comprehensive Housing Affordability Strategy database, and replacement dwelling units shall be provided in that same percentage.
(2) If all of the dwelling units are vacant or have been demolished within the five years preceding the application, the development must contain at least the same number of replacement dwelling units, of equivalent size and bedrooms, as existed at the highpoint of those units in the five year period preceding the application, and must be made affordable to and occupied by persons and families in the same or a lower income category as those in occupancy at that same time. If the income categories are unknown for the highpoint, it is rebuttably presumed that the dwelling units were occupied by very low income, low income, or moderate income renter households in the same proportion of very low income, low income, or moderate income renter households to all renter households within the City of San Diego, as determined by the most recently available data from the United States Department of Housing and Urban Development’s Comprehensive Housing Affordability Strategy database, and replacement dwelling units shall be provided in that same percentage.

(3) All replacement dwelling unit calculations resulting in fractional units shall be rounded up to the next whole number.

(4) All rental replacement dwelling units shall be affordable for at least 55 years.

(5) All for-sale replacement dwelling units shall be subject to the provisions of Section 143.0720(d)(4)-(8).

A density bonus for transitional foster youth, disabled veterans, or homeless persons for very low income shall be calculated as set forth in Table 143-07A.

(6) For development meeting the criteria for lower income students, the density bonus and incentives shall be calculated in accordance with Table 143-07B.

(A) For development located outside of a Sustainable Development Area, the density bonus shall be 80 percent of the number of pre-density bonus dwelling units provided for low income or very low income households. This bonus does not apply to development consistent with Section 143.0720(i).

(B) For development located within a Sustainable Development Area, there shall be no limit on the number of dwelling units permitted.

(9) For micro-unit development that provides five or more dwelling units; meets the criteria in Sections 143.0720(c)(1), 143.0720(c)(2), 143.0720(d)(1), 143.0720(d)(2), 143.0720(d)(3), 143.0720(e), or 143.0720(f); provides an average of no more than 600 square feet per dwelling unit with no dwelling unit exceeding 800 square feet; with a portion of the lot located within a Sustainable Development Area; and where the premises can be serviced by all required utilities, a density bonus of up to 100 percent of the pre-density bonus dwelling units shall be granted. (11) Where the development consists of two or more specifically identified parcels, whether contiguous or noncontiguous, the maximum number of dwelling units permitted on each parcel is calculated based on the area of that parcel.

(12) Where the development consists of two or more noncontiguous parcels lying within two or more community planning areas, the dwelling units reserved at levels affordable to very low income, low income, or moderate income households shall be distributed among these community planning areas in the same proportion as the total number of dwelling units constructed within the development.
(13) If the applicable land use plan map identifies an allowable density range in dwelling units per acre, the maximum allowable density in that range shall be used to calculate the density bonus as set forth in Table 143-07A, Table 143-07B or Table 143-07C. The allowed density bonus dwelling units shall not be counted towards the maximum allowed floor area ratio of the zone; and within the mixed-use base zones the allowed density bonus dwelling units shall not be counted towards the percentage of the required primary use or secondary use, as that term is defined in Section 131.0702.

(14) Within the Centre City Planned District, the maximum floor area ratio shall be used to calculate the base density and density bonus as set forth in Table 143-07A, Table 143-07B, or Table 143-07C, and shall comply with Section 156.0309(e)(1).

(15) For development that meets the criteria in Sections 143.0720(c)(1), 143.0720(c)(2), 143.0720(d)(1), 143.0720(d)(2), 143.0720(d)(3), 143.0720(e), 143.0720(f), 143.0720(g), 143.0720(h), or 143.0720(i), where at least 20 percent of the total dwelling units are three bedrooms or greater, an additional density bonus of 20 percent shall be granted and an additional density bonus of 10 percent of the pre-density bonus dwelling units shall be granted, if the density bonus dwelling units provided contain at least three bedrooms.

(m) For purposes of this Division, density bonus means an increase in density in accordance with Section 113.0222(c) beyond the otherwise maximum allowable density; or, if elected by the applicant, a lesser percentage of density or no increase in density.

(n) All density calculations resulting in fractional units shall be rounded up to the next whole number.

(o) A residential or mixed-use development consistent with all base zone requirements may receive a 0.5 floor area ratio bonus that may be combined with any other bonuses and incentives found within this Division and within Chapter 14, Article 3, Division 10 if any portion of the development is located on a premises that meets all of the following:

(1) Located in a Sustainable Development Area; and

(2) Located in a commercial base zone that allows for residential or mixed-use development; and
(3) Has an existing land use in the premises that is not developed residential.

(p) Very low income, low income, and moderate income households located in an area identified as a Low Resource or High Segregation and Poverty Resource California Tax Credit Allocation Committee (CTCAC) Opportunity Area when the development application is deemed complete shall receive priority preference for new covenant-restricted dwelling units created under this section.

§143.0740 Incentives in Exchange for Affordable Housing Dwelling Units

An applicant proposing a density bonus shall be entitled to incentives as described in this Division for any development for which a written agreement and a deed of trust securing the agreement is entered into by the applicant and the President and Chief Executive Officer of the San Diego Housing Commission. The City shall process an incentive requested by an applicant as set forth in this section.

(a) An incentive means any of the following:

1. A deviation to a development regulation;

2. Approval of mixed use zoning in conjunction with a residential development provided that the commercial, office, or industrial uses:
   (A) Reduce the cost of the residential development; and
   (B) Are compatible with the proposed residential development; and
   (C) Are compatible with existing or planned development in the area where the proposed residential development will be located.

3. Any other incentive proposed by the applicant, other than those identified in Section 143.0740(b), that results in identifiable, actual cost reductions.

(b) Items not considered incentives by the City of San Diego include, but are not limited, to the following:

1. A waiver of a required permit, except as permitted by Sections 132.1202(b) and 132.1402(b);

2. A waiver of fees or dedication requirements;

3. A direct financial incentive;

4. An increase in the maximum permitted floor area ratio in land use plans that use floor area ratio rather than dwelling units per acre or per square foot as the mechanism to control density.
(c) An incentive requested as part of a development meeting the requirements of Section 143.0720 shall be processed according to the following:

(1) Upon an applicant’s request, development that meets the applicable requirements of Section 143.0720 shall be entitled to incentives pursuant to Section 143.0740 unless the City makes a written finding of denial based upon substantial evidence, of any of the following:

(A) The incentive is not required in order to provide for affordable housing costs, as defined in California Health and Safety Code Sections 50052.5 and 50053;

(B) The incentive would have a specific adverse impact upon public health and safety as defined in Government Code section 65589.5, the physical environment, including environmentally sensitive lands, or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low income and moderate income households;

(C) The incentive would be contrary to state or federal law. Requested incentives shall be analyzed in compliance with the California Environmental Quality Act as set forth in Chapter 12, Article 8, and no incentive shall be granted without such compliance; or

(D) Within the Coastal Overlay Zone, the incentive would be inconsistent with the resource protection standards of the City’s Local Coastal Program or the environmentally sensitive lands regulations, with the exception of density.

(2) When a development permit is otherwise required, the decision to deny a requested incentive shall be made by the decision maker for the development permit.

(d) The number of incentives available are identified in Table 143-07A for very low income households, Table 143-07B for low income households, and Table 143-07C for moderate income households consistent with the percentage of pre-density bonus units identified in the first column of each table.
(e) For a development providing 100 percent of the pre-density bonus dwelling units as affordable to very low income, low income, and moderate income households in accordance with Section 143.0720(h); or development within a Sustainable Development Area providing 100 percent of the total pre-density and post-density bonus dwelling units as affordable to very low income, low income, and moderate income households in accordance with Section 143.0720(i), five incentives shall be available. If the development is located within a Sustainable Development Area, the applicant shall also receive a structure height increase of up to 3 additional stories or 33 feet.

   (2) The waiver would have an adverse impact on any real property that is listed in the California Register of Historical Resources; or

   (3) The waiver would be contrary to state or federal law. Requested waiver(s) shall be analyzed in compliance with the California Environmental Quality Act as set forth in Chapter 12, Article 8, and no waiver shall be granted without such compliance.

   (4) Within the Coastal Overlay Zone, the waiver would be inconsistent with the resource protection standards of the City’s Local Coastal Program or the environmentally sensitive lands regulations, with the exception of density.

(c) The granting of a waiver shall not require a General Plan amendment, zoning change, development permit, or other discretionary approval.

§143.0745 Locating Required Affordable Dwelling Units Off-site

A development that complies with the Affordable Housing Regulations may provide all or a portion of the required affordable dwelling units off-site in accordance with the following:

(a) Off-site affordable dwelling units shall be located in the same community planning area and City Council District, or within one mile of the premises of the development. The distance shall be measured in a straight line from the property lines of the proposed housing developments.

(b) Off-site affordable dwelling units that do not meet the locational criteria in Section 143.0745(a) and (c) may be approved with a Process Four Planned Development Permit in accordance with Section 126.0604.

(c) Off-site affordable dwelling units that do not meet the locational criteria in Section 143.0745(a) may be located in an area where the receiver site is within a Sustainable Development Area, an area identified as a High or Highest Resource California Tax Credit Allocation Committee (CTCAC) Opportunity Area, and less than five percent of the existing dwelling units in that community planning area are covenant-restricted to very low income, low income, or moderate income households.
(d) At a minimum, the same number of affordable dwelling units required of the development must be provided, at the same affordability levels and the same total bedroom count as the development. The applicant may provide different bedroom mixes to meet the total dwelling unit and bedroom count minimums. For purposes of calculating total bedroom count, an affordable studio shall count as 60 percent of an affordable bedroom and an affordable SRO hotel room shall count as 40 percent of an affordable bedroom. Any calculations resulting in fractional units shall round up to the next whole number.

(e) The applicant, prior to the issuance of the first building permit for the development, shall secure the required number of off-site affordable dwelling units and enter into an agreement(s) with the President and Chief Executive Officer of the San Diego Housing Commission establishing the same terms and conditions set forth in Section 143.0720 for similar affordable density bonus dwelling units.

(f) Off-site affordable dwelling units may be located in an existing structure, provided the applicant provides evidence that the existing structure has a remaining useful life of at least 55 years from the issuance of a Certificate of Occupancy pursuant to Section 143.0745(g)(2)(B) and complies with current California Building Code standards, to the satisfaction of the City Manager. Off-site affordable dwelling units that are occupied at the time the application is deemed complete shall comply with the State Relocation Act pursuant to California Government Code Section 7260 or the Residential Tenant Protection Regulations in accordance with Chapter 9, Article 8, Division 7, whichever amount of relocation assistance is greater.

(g) Prior to the issuance of the first building permit, the applicant shall record a deed restriction against the off-site development that:

(1) Documents the required number of affordable dwelling units to be provided; and

(2) Assigns foreclosure rights of the development premises to the San Diego Housing Commission as follows:

(A) For new development, if the affordable dwelling unit(s) has not received a certificate of occupancy within 54 months of the issuance of the first building permit.
(B) For an existing structure(s), if the affordable dwelling unit(s) has not received a certificate of occupancy within 36 months of the issuance of the first building permit.
