

THE CITY OF SAN DIEGO

Report to the City Council

DATE ISSUED:

May 22, 2017

REPORT NO. 17-031

ATTENTION:

Honorable Council President and City Council

SUBJECT:

Approve Fiscal Year 2018 Annual Reports for Park and Recreation Department Maintenance Assessment Districts (MADs)

REQUESTED ACTION:

This City Council action is to: 1) Approve updated Fiscal Year 2018 Annual Reports; and, 2) Authorize appropriation and expenditure of funds for the Maintenance Assessment Districts (commonly referred to as MADs) that are managed by the Park and Recreation Department.

STAFF RECOMMENDATION:

Staff recommends approval.

EXECUTIVE SUMMARY OF ITEM BACKGROUND:

In Fiscal Year 2017, at the City Council Meeting of July 19, 2016, City Council authorized the continued levy of the Maintenance Assessment Districts for the existing 55 MADs per Muni Code §62.0211 for the life of the districts. This action is to approve the Fiscal Year 2018 Annual Reports for each of the 55 MADs administered by the Park and Recreation Department prior to the County of San Diego enrollment deadline of August 10, 2017. The annual reports contain updates to the assessment rolls due to parcel changes and also reflect the Fiscal Year 2018 Budget for each district. In addition, the annual report identifies contributions made by the City to provide general benefit for maintenance of and improvements to parkland, library and fire station grounds, open space, parkways and medians. This action also authorizes appropriation and expenditure of MAD funds in accordance with the Annual Appropriation Ordinance, including capital funds and developer deposit funds collected in accordance with Council Policy 100-21.

Program Overview – MADs are authorized by the state Constitution and local law to assess benefiting property owners for maintenance of landscaping, lighting and other public improvements that confer special benefit. Specific authority is provided for in the City of San Diego Maintenance Assessment District Procedural Ordinance, which is found in San Diego Municipal Code §65.201 et seq and applicable provisions of Proposition 218 (Articles XIIIC and XIIID of the California Constitution).

Maintenance and improvement areas within MADs may include but are not limited to landscaped and paved medians, landscaped right-of-ways and slopes, open space, parks, ponds, flood control channels, monuments, decorative street lighting, decorative gates, community signage, and other public improvements and enhancements that confer special benefit. MADs may also provide for cleaning of curbs and gutters, sweeping sidewalks, and security services.

The City of San Diego's Park and Recreation Department currently administers 55 MADs located throughout the City. The Economic Development Department administers the remaining 9 MADs, mostly in conjunction with existing Business Improvement Districts.

Attachment 1 provides a complete list of all Park and Recreation MADs including the Council District and community planning area. Each of the districts described herein were created by prior Council action and prior property owner ballot processes.

Separation of General and Special Benefits

Assessments collected through the MADs may only fund activities that provide a "special benefit." During the district formation process, the Assessment Engineer separates and quantifies the special benefits, determines areas of benefit, and apportions assessments based on relative special benefit. This determination is based on the nature of improvements/services to be maintained or provided by the district. The costs of maintaining the improvements apportioned to the properties within the district must be in proportion to the special benefits received by such properties.

Special benefits may include higher frequencies of services or services not otherwise provided by the City. Proposition 218 defines special benefit as follows

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit." (Article XIIIID, §2(i)).

Or: "Special benefit" means a particular and distinct benefit over and above general benefits conferred on properties located in a district or to the public at large. Special benefit includes incidental or collateral effects that arise from certain improvements or activities of districts even if those incidental or collateral effects benefit property or persons not assessed. Special benefit excludes general enhancement of property value.

"General benefits" can be characterized as benefits associated with the City's standard level of service provided to the public at large as well as benefits that accrue to persons and/or properties located outside the district. The Assessment Engineer separates and quantifies the amount of "general benefit" as part of the district formation process. General benefits are funded by sources other than assessments. These other sources are defined in the "City Contributions and General Benefit Calculation" section later in this report.

As part of the district formation process, the Assessment Engineer prepares the Assessment Engineer's Report, analyzes the improvements for each MAD, and establishes a boundary for the area of benefit. Only properties that benefit from the maintenance of improvements in the district are included within the MAD boundary, and each property is entitled to a weighted vote at the time of district formation.

Levy of Assessments and Annual Report

In accordance with San Diego Municipal Code §65.201 et seq., Annual Reports are updated annually thereafter as described in this report. The Fiscal Year 2018 Annual Reports listed on Attachment 2 can be found on the City's webpage at www.sandiego.gov/park-and-recreation/general-info/engreports.shtml. The methodology to create the assessment levy is described in each district's Assessment Engineer's Report and cannot be modified as part of the annual update process. An explanation of the budgets is provided in Attachment 3.

As part of this action, staff requests that the City Council approve the annual reports for the MADs. This action will allow the levy to be placed on the San Diego County Property Tax enrollment prior to its deadline of August 10, and will meet the legal requirements necessary for each MAD to provide the maintenance and other services as described in the Annual Reports. Attachment 4 provides a list of the summarized assessment district levies and parcel count for the 55 Park and Recreation-administered MADs. Each of these districts is also included in the Proposed Fiscal Year 2018 Budget.

For the Fiscal Year 2018 update, Park and Recreation Department retained EFS Engineering, Inc. to review all MADs and provide an updated Annual Report for each district. Updates to the reports include:

- Modifying assessment rates within provisions for cost indexing, maximum assessment rate, and reserve limits
- Identifying property and land use changes that may impact the calculation of the assessment rate
- Reviewing the scope of services for improvements to comply with assessment methodology
- Incorporating general benefit rates proposed for Fiscal Year 2018
- Integrating the Proposed Fiscal Year 2018 Budget

Assessment Rates

Each district has unique attributes that require individual review of the Assessment Engineer's Report, especially the calculation of the district's assessment rates. Some districts are permitted to index assessments by the San Diego Regional Consumer Price Index – All Urban Consumers (CPI) as calculated by the federal Bureau of Labor Statistics. Others are permitted to increase at a rate higher than CPI. Still other districts have no provisions for any inflationary increases to the assessment rate.

In cases where an inflationary adjustment is permissible, the maximum authorized assessment is indexed by applicable CPI or inflationary factors. The Fiscal Year 2018 assessment may be an amount equal to or less than the maximum authorized assessment.

The Fiscal Year 2018 CPI base indexing factor is 1.96%, based on the annual change in the "Second Half" values as shown in the following table:

**Change in Consumer Price Index All Urban Consumers
San Diego, Fiscal Years 2009-2018
U.S. Bureau of Labor Statistics**

Calendar Year	Fiscal Year	First Half	Second Half	Increase
2007	FY 2009	231.870	234.772	2.25%
2008	FY 2010	242.440	242.185	3.16%
2009	FY 2011	240.885	243.655	0.61%
2010	FY 2012	244.242	246.686	1.24%
2011	FY 2013	252.451	253.368	2.71%
2012	FY 2014	256.637	257.285	1.55%
2013	FY 2015	258.955	261.679	1.71%
2014	FY 2016	265.251	265.039	1.28%
2015	FY 2017	267.346	271.526	2.45%
2016	FY 2018	272.628	276.837	1.96%

A summary of assessment rate changes for all districts is provided in [Attachment 5](#).

Property and Land Use Changes

Land use changes occur routinely throughout the year and are incorporated into the Annual Report. Most MADs have apportionment methodology that relies on land use factors and the City's Trip Generation Manual (2003) to calculate the assessment. Since the latest property information was not available at the time the Proposed Fiscal Year 2018 Budget was submitted to the City Council in April, discrepancies may exist in total assessment revenue reported in the Proposed Fiscal Year 2018 Budget as compared to the Annual Reports, primarily due to parcel and land uses changes.

Modifications to Scope of Services

Improvements maintained by a MAD are delineated in each Annual Report, typically in the "Project Description" section. Minor changes to modify services/activities may be approved by City Council as defined in Municipal Code 65.0215. From time to time, clarification and explanatory language may be added to a report to explain the exact services provided by a MAD.

City Contributions and General Benefit Calculation

The formation of a MAD does not remove the City obligation to provide a standard level of services. For specific services that are provided by the MAD in lieu of the City at large, financial and in-kind contributions are made to MADs to provide general benefit for specific types of improvements as follows:

- Environmental Growth Fund for open space lands maintenance
- Gas Tax Fund for landscape and hardscape median maintenance
- General Fund for population-based park maintenance

- General Fund for fire station grounds and library grounds through a Memorandum of Understanding (MOU).
- General Fund or non-assessment assessment contribution for external public special benefits as defined by FY 2017 Assessment Engineer Reports.
- Street Division provides in-kind services for energy and maintenance of standard street lights as defined in Council Policy 200-18 and the 2002 Street Design Manual.

The amount of contribution is defined in the Proposed Fiscal Year 2018 Budget. [Attachment 6](#) provides detailed information regarding the current rate for each general benefit contribution. Additional details for each type of general benefit contribution follows:

Open space maintenance receives an allocation from the Environmental Growth Fund, which is based upon prior years' actual expenditures for open space within the Park and Recreation Department. Excluded from this calculation are park ranger and brush management services, as MADs typically do not provide these services.

Median maintenance receives an allocation from the Gas Tax Fund, which is normally based on prior years' actual expenditures within the Gas Tax Median Program. As part of this program, the Park and Recreation Department maintains 92 landscape and hardscape street medians that are scattered throughout the City and generally are not located within the boundaries of an existing MAD. Median maintenance within a MAD receives an allocation from the Gas Tax Fund based on the cost to maintain each square foot of landscaped or hardscape median.

Park maintenance receives an allocation from the General Fund. The park maintenance contribution is for population-based parks in accordance with General Plan standards for each community planning area as defined by the Development Services Department, Planning Division. The amount of the contribution is based on the prior years' actual expenditures for parkland maintenance, excluding overhead, utilities, and capital improvements. Utilities (water, sewer, electrical) are also excluded since utility bills are paid directly from the General Fund for parks rather than passing through the MAD budget. Funding for park maintenance is budgeted in the Park and Recreation Department budget.

Library and fire station grounds maintenance also receives an allocation from the General Fund from the Library Department and Fire-Rescue Department budgets under SLAs with each department. The amounts of contribution from these departments are based on actual maintenance costs for each location. The maintenance costs are identified within the current landscape maintenance contract and stated in the MOU rather than based on prior year actual expenditures.

Street lighting energy and maintenance costs are split between the General Fund and the MAD, with the Street Division providing all maintenance services. Street lighting provided in excess of City standards (as defined in the Street Design Manual) may be funded by the MAD as a special benefit, while street lights installed per the City standards are funded by the General Fund. The MAD will fund appropriate energy and maintenance costs based on the most recent determination of special benefit street lights.

External benefits are benefits received by the general public who do not pay an assessment into the district, yet experience some level of special benefit above and beyond what the City provides from assessment district services or amenities. Assessment law specifies that only special benefits may be assessed and recent court rulings have rendered that special benefits

received by the general public must be funded by sources other than assessments collected from parcel owners in the district. Examples of other sources of funding are General Fund contributions to Parks, Library and Street light maintenance and Gas Tax contributions to median maintenance. In Fiscal Year 2015, the Assessment Engineer further separated and quantified these External benefits. This resulted in an additional contribution from the General Fund identified as "General Fund Benefit Offsets."

Proposed Fiscal Year 2018 Budget Integration

Assessment rates and general benefit rates are incorporated into the Proposed Fiscal Year 2018 Budget, which is also presented in each MAD's Annual Report in Exhibit B. The budgets in Exhibit B are unchanged from the Mayor's Proposed Fiscal Year 2018 Budget, aside from the land use changes that impact the apportionment methodology and may result in a changed parcel assessment/revenue collection amount.

Shared costs for all 55 Park and Recreation MADs are budgeted in the Park and Recreation MAD Management Fund, which allocates its costs across each district on a ratio based on prior year expenditures. Costs incurred within the MAD Management Fund include contract inspectors, analytical/budgetary support, accounting, assessment engineering, assessment enrollment, contract procurement, legal, information technology, vehicles, and communications. The MAD Management Fund budget is presented in Attachment 7.

All publicly-owned parcels (including those owned by the City) are assessed based on the proportional special benefit conferred to the property as quantified by the Assessment Engineer. Assessable parcels owned by the City are funded from Citywide Program Expenditures (General Fund) in accordance with Resolution R-288830 dated June 9, 1997. Attachment 8 provides a list of City-owned parcels with an assessment levy as a result of this action.

Requested Annual Budget

This action authorizes appropriation and expenditure of funds related to MAD activities, including the MAD administrative fund, district operating funds, district capital improvement funds, and developer deposit funds. The MAD Management Fund provides for all shared costs in the MAD program, including position expenses and costs associated with budgeting, finance, procurement, and accounting. Each of the 55 MADs has its own operating fund budget as presented in the Proposed Fiscal Year 2018 Budget and in the Annual Reports (Exhibit B) and some MADs are authorized to have capital improvement programs for MAD funded projects. Finally, deposit funds have been created for MAD formation activities in compliance with Council Policy 100-21.

To meet the County of San Diego's August 10, 2017 deadline for enrolling assessments in the annual property tax bill for Fiscal Year 2018, and to ensure consistency with the Proposed Fiscal Year 2018 Budget, the City Council must approve these Reports annually. If approved, assessments for each MAD would appear on tax bills for benefitting property owners in fall 2017. If this action is not approved, existing districts will need to rely on their reserves to fund maintenance of improvements. Reserve levels vary in each district. Once reserves are depleted, special benefit maintenance activities would cease.

CITY STRATEGIC PLAN GOAL(S)/OBJECTIVE(S):

Goal #2: Work in partnership with all of our communities to achieve safe and livable neighborhoods.

Objective #3: Invest in infrastructure.

Objective #4: Foster services that improve quality of life.

Objective #5: Cultivate civic engagement and participation.

FISCAL CONSIDERATIONS:

Assessment Revenue Attachment 4 summarizes the Proposed Fiscal Year 2018 Assessment for all 55 Park and Recreation MADs; the total assessment amount is projected to be \$13,972,332. This attachment also provides a summary of assessment levies and parcels sorted by district.

Assessment rates and benefit units vary for each district based on the method of apportioning the benefit as described in the Assessment Engineer's Report. Some districts may have multiple assessment rates in defined zones of benefit based on the location of the property in relationship to the improvements. Attachment 5 provides a summary of assessment rate and benefit unit changes between Fiscal Year 2017 and Fiscal Year 2018 for each district, including assessment rate changes for specific zones of benefit.

The following table provides an overview of the nature of assessment rate changes between these two fiscal years for the 55 MADs:

Change between Fiscal Year 2017 and Fiscal Year 2018	Number of MADs
Assessments Raised by CPI	14
Assessments Unchanged	33
Assessments Suspended	2
Assessments Reinstated	1
Assessments Increased	4
Assessments Decreased	1

General Benefit/City Contributions

City Contributions are provided to MADs for the purpose of providing general benefit for activities otherwise provided by the City but in this case performed by the MAD. The general benefit is included in the Proposed Fiscal Year 2018 Budget for each funding source.

Estimated general benefit contributions are summarized in the table below. Most changes are due to rate changes as shown in Attachment 6.

Funding Source	Type of Maintenance Activity	FY2017 Budget	FY2018 Proposed	Change
Environmental Growth Fund	Open Space	\$261,869	\$301,044	\$39,175
Gas Tax Fund	Street Medians	\$1,214,719	\$1,266,388	\$51,669
General Fund	Park Grounds	\$873,858	\$1,044,078	\$170,220
General Fund	Library Grounds	\$27,461	\$28,011	\$550
General Fund	Fire Station Grounds	\$15,424	\$15,733	\$309
General Fund	External Benefit Contribution	\$928,635	\$1,000,753	\$72,118
TOTAL		\$3,321,966	\$3,656,007	\$334,041

City-Owned Parcels within MADs

The City owns 1,261 assessable parcels located within the Park and Recreation-managed MADs.¹ Consequently, there will be a General Fund impact of \$178,231.98 (see [Attachment 8](#) for a complete list of parcels). The City Council directed staff to pay assessments levied against City-owned parcels through Resolution R-288830 dated June 9, 1997. Assessments to property owned by the City are budgeted in the General Fund, Citywide Program Expenditures department budget.

Integration with the Proposed Fiscal Year 2018 Budget

Proposed budgets for the 55 existing MADs and the MAD Management Fund are included in Volume 1 of the Proposed Fiscal Year 2018 Budget document (Schedule VIII, pages 197-198). These proposed budgets were approved during City Council consideration as part of the Fiscal Year 2018 Budget Hearings.

The Annual Reports presented herein incorporate the proposed annual budget and incorporates the latest property information, which may result in changes to anticipated revenues, the majority of which are property assessments. A copy of each district's budget, including revenues, expenditures, and fund balances/reserves is provided in Exhibit B of the Annual Reports. A copy of the MAD Management Fund's budget, including revenues, expenditures, and fund balances/reserves is provided in [Attachment 7](#). The budgetary display includes Fiscal Year 2016 unaudited actuals, Fiscal Year 2017 estimate, and Fiscal Year 2018 budget.

MAD Reserves/Fund Balance

Reserves and fund balances are maintained generally at an amount no greater than 50% of the annual budget for each district or at a higher amount approved by the MAD Community Advisory Group. Staff reviews existing fund balances along with anticipated and actual revenues and expenditures to determine whether modifications to the assessment rate or estimated expenditures are necessary.

EQUAL OPPORTUNITY CONTRACTING INFORMATION (if applicable):

This section is not applicable, as this action does not pertain to any contract or agreement.

PREVIOUS COUNCIL and/or COMMITTEE ACTIONS:

The City Council approved the Fiscal Year 2017 Assessment Engineer's Reports, Annual Reports and annual levy of assessments for all existing Park and Recreation MADs for the life of the districts on July 22, 2016. This action will update the Park and Recreation MADs for Fiscal Year 2018. A companion Council action will consider existing MADs managed by the Economic Development Department.

COMMUNITY PARTICIPATION AND OUTREACH EFFORTS:

For those districts with a citizen advisory committee (designated representatives), staff presented the Proposed Fiscal Year 2018 Budget, which incorporates annual assessment rates shown in the Annual Reports. MAD citizen advisory committees are typically subcommittees of officially recognized planning committees, town councils, or other community based organizations. In addition, staff conducted a publicly noticed meeting to discuss the Proposed Fiscal Year 2018 Budget and assessment rates for all districts. This meeting took place on February 2, 2017 in accordance with Municipal Code §65.0219(a).

¹ Note that many City-owned parcels are open space. In keeping with the methodology defined in the Assessment Engineer's Report, many of these parcels do not receive benefit and thus will have no assessment levied.

KEY STAKEHOLDERS AND PROJECTED IMPACTS:

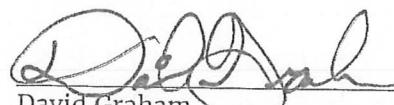

Key Stakeholders: This action most directly affects property owners to be assessed in each of the 55 MADs, as they directly benefit from the maintained improvements and will see an assessment charge in the fall 2017 property tax bill. Other key stakeholders are the citizen advisory committees that serve as the “designated representatives” of assessed property owners to advise the City regarding the budget and operations of the existing MADs in accordance with Municipal Code §65.0212. Staff works closely with these groups in developing annual MAD budgets and providing contract specifications for maintenance. The advisory committees met with staff to develop budgets during the October 2016 through February 2017 timeframe.

Projected Impacts: If the Annual Reports are not authorized, the City will be unable to maintain special benefits. In this scenario, existing districts will need to rely on their reserves to maintain improvements. Some MADs would remain in service longer than others since reserve levels vary. As reserves are depleted, maintenance activities would cease, and assets would be decommissioned. If the appropriation and expenditure of MAD funds is not authorized, all MAD services would immediately cease (including MAD formation funds authorized in Council Policy 100-21), and a contingency plan would need to be developed to decommission MAD assets. If all actions are approved, then assessments will be levied and maintenance services and improvements will be provided at budgeted levels.

Respectfully Submitted,

Herman D. Parker
Park and Recreation Director

David Graham
Deputy Chief Operating Officer

Park and Recreation Department Maintenance Assessment Districts Program

UNDERSTANDING THE BUDGET

This is an overview of how to read the Maintenance Assessment District (MAD) budget worksheet. Three fiscal years of data are provided:

- *Prior Year Budget and Actuals* (Column A)
- *Current Year Budget and Estimates* (Column B)
- *Upcoming Fiscal Year's Proposed Budget* (Column C)

The exhibit is organized as shown in the attached table, with explanatory detail by reference number as shown below.

EXPENDITURES

1. Full-Time Equivalent Grounds Maintenance Manager and Personnel Expense

If the City manages the District's contracts for goods and services, there will typically be a Grounds Maintenance Manager (GMM) position and personnel expense in the budget. The GMM prepares contract specifications based on the scope of services adopted by the property owners; inspects contractors' work for compliance with contract; reviews invoices and authorizes payment or deductions; meets with property owner advisory committees; and responds to property owner questions and issues.

The "full-time equivalent" line item provides a fraction indicating the amount of time the GMM is assigned to the district. A GMM with an assigned fraction of 0.20, for example, would be working on the district issues 20% of the time or eight hours per week. This implies that the GMM has other assignments that collectively represent a single, full-time GMM.

These lines will have no positions and no expenditures listed if the property owners voted to have a non-profit corporation manage their contracts for goods and services in accordance with Municipal Code §65.0212 (example: Bird Rock MAD and Civita MAD). In this case, the non-profit corporation's costs are identified as non-personnel expense since the costs are not related to City staff.

Positions or personnel expenses may or may not be identified in these two line items if the district exclusively provides for street lighting or street repair (examples: Del Mar Terrace, Black Mountain Ranch North, Liberty Station/Naval Training Center, and Mission Hills Historic Street Lighting). Most services provided in these districts are listed as non-personnel expenses since services are provided on a billable basis by the Street Division.

2. Supplies

Certain supplies not otherwise provided by vendors as part of their service contracts may be expensed through this line item. Specific supplies commonly purchased for MADs include nursery stock/plants, fertilizer, soil, paint, locks, irrigation parts, and cleaning products.

3. Services

The services line item includes amounts spent on contract services as itemized in the budget display. Typical services include landscape maintenance, tree trimming, repair and upkeep of fixtures (such as fences, gates, irrigation, etc.), and pest control. Most districts maintain landscaping, so this line item commonly has landscape maintenance at a minimum. This is typically one of the largest line items in the budget.

4. Utilities

Water, storm drain fee, and electricity are common utility charges associated with MADs. Typically, an irrigation system will require all three charges to cover usage of the water, impact of irrigation onto the storm drain system, and electricity to operate the irrigation controllers. For districts with street lighting, special benefit street lighting electricity costs will be itemized in this section. This is typically one of the largest line items in the budget.

5. Other/Special Districts Administration (including Vehicle Assignment and Usage)

The first line reflects a loss of discount if the contract allows for a discount. The fourth line item represents the cost of a fully loaded GMM. The second and third line items represent the district's proportional contribution to the MAD Management Fund. This fund provides for costs that are shared across multiple districts and includes the following tasks:

a. Assessment Engineer's Reports and Annual Levy

- i. preparing annual updates to assessment engineers reports for all districts, including review of changes to land use, parcel splits, etc. in accordance with Municipal Code §65.0211 and state law
- ii. updating parcel enrollment for all MADs
- iii. researching uncollectible and errant parcel information
- iv. submitting parcel enrollment to County of San Diego
- v. invoicing non-taxable property owners through OneSD system
- vi. explaining role of MADs to owners who call with questions about the levy
- vii. evaluating requests for a change to the assessment calculation

b. Financial (Budget and Accounting)

- i. preparing and presenting annual district budgets
- ii. monitoring of current year expenditures and revenues
- iii. reviewing and paying invoices from non-profit corporations that administer contracts for goods and services on behalf of certain MADs
- iv. paying invoices on-time within terms specified in service contract
- v. accounting expenditures, revenues, and fund balances for each MAD

c. Community Outreach/Customer Service

- i. meeting with advisory committees to discuss issues and obtaining advice to address problems or issues within the MAD
- ii. responding to property owner requests
- iii. conducting advisory committee meetings regarding budget and contract specifications in accordance with Municipal Code §65.0209 and 65.0210

- d. Property Management
 - i. preparing and researching maps that show property ownership, easements, permit conditions, etc. for areas maintained by the MAD or located adjacent to the MAD
 - ii. investigating minor encroachments
 - iii. reporting code violations and street right of way issues to the appropriate City department
- e. Procurement
 - i. managing a competitive procurement process for service contracts in accordance with Municipal Code §22.3203
 - ii. ensuring contractors paid for services received by the MAD
 - iii. ensuring equal opportunity contracting and living wage ordinance compliance
 - iv. routing contracts that exceed \$3 million cumulatively over contract term to City Council for approval in accordance with Municipal Code §22.3206(d)
- f. Capital Improvements Program
 - i. developing and refining capital improvement projects (CIPs) to be funded by MAD
 - ii. coordinating with project managers, contractors, and resident engineers during design and construction process
 - iii. reviewing impacts of various permitted construction projects and developments located in or adjacent to MAD areas not funded by MADs
- g. Special Benefit Street Lighting
 - i. defining nature of general vs. special benefit street lighting in accordance with the City's Street Design Manual (2002)
 - ii. preparing and maintaining inventory of special benefit street lighting
 - iii. determining costs of energy and maintenance of special benefit street lights in consultation with Street Division
- h. Legal
 - i. obtaining legal advice for various MAD activities
- i. Shared Costs
 - i. providing office space, copiers, computers, cellular telephones, etc.
 - ii. providing vehicles to each GMM; costs are charged based on the annual vehicle assignment, usage, and gasoline costs prorated by the fraction of the GMM assigned to the district

Capital Improvements Program (CIP)

Capital improvement projects may include installation of street lights, new planted medians, and other permanent public improvements that are consistent with the apportionment methodology provided in the Assessment Engineer's Report. However, not all MADs are authorized to contribute to capital improvement projects. If a district has an existing or planned contribution to a capital improvement project, the amount of the contribution, the project number, and the project title are typically provided here. This information may be cross-referenced with the CIP section of the City's Annual Budget (see <http://www.sandiego.gov/fm/>).

REVENUES

6. Special Assessments

Special assessments include all levies, including those charged through the annual property tax bill as well as those manually invoiced to property owners.

7. Interest Earnings

Each district has its own interest-bearing fund. Any cash balances within the fund earn interest as part of the City's investment pool, and any interest earnings are reflected in this line item. The budgeted amount is estimated using previous year's experience.

8. City Contributions

The City contributes the "general benefit" to MADs for medians (Gas Tax); parks, fire station grounds, and library grounds (General Fund), and open space (Environmental Growth Fund).

9. Miscellaneous Revenue

Any other revenues received by the district not otherwise described above will show in this line item. This line item may include damage recovery from vehicle accidents and vandalism, permit fees, and private contributions.

FUND BALANCE CALCULATION / RESERVES

10. Beginning Reserve, Change in Reserve, and Ending Reserve

The reserve is the fund balance held for contingency purposes within each district. Reserves may be held for unanticipated, non-emergency needs; anticipated future projects or large onetime purchases; catastrophic needs; emergency needs; revenue shortfalls; and operating expenses to avoid assessment increases. If reserves are reduced, they should be replenished within a suitable timeframe.

Carryover funds from the previous fiscal year (where revenues are in excess of expenditures) are considered part of the beginning fiscal year reserve, also called a fund balance. During the course of the fiscal year, any incoming revenues are added to this amount, and outgoing expenditures are deducted from this amount. At the end of the fiscal year, the resultant closing fund balance is provided at the bottom of this section and is described by the following equation:

Beginning Reserve/Fund Balance

$$\begin{array}{l} + \text{ Annual Revenues} \\ - \text{ Annual Expenditures} \\ = \text{ Year-End (Closing) Reserve/Fund Balance} \end{array} \quad \} = \text{Change in Fund Balance}$$

11. TARGET FUND BALANCE

The 10% minimum Operating Expenditures Reserve reflects a minimum amount of funds available to address unforeseen expenditures any MAD may encounter. The Six Months of Operating Expenditure maximum mirrors the Streets and Highways Code §22569 requirement - "may include a reserve which shall not exceed the estimated costs of maintenance and servicing to December 10 of the fiscal year, or whenever the city expects to receive its apportionment of special assessments and tax collections from the county, whichever is later." Since this apportionment typically arrives in January, the maximum reserve is defined as six months (50%) of the total operating budget.

12. ANNUAL ASSESSMENT RATE AND EBU's

Annual Assessment rates are initially determined by the Assessment Engineer at the time the district is formed and approved through the ballot process. Information on how specific assessment rates were determined can be found in the Apportionment Methodology section of each individual Assessment Engineer's Report. The dollar amount assessed to each property owner each year varies in response to actual expenditures versus the revenue and reserve requirements for each MAD. The Annual Assessment Rate may be well below the Maximum Authorized Assessment Rate if the MAD does not require all of the potential funding that would be raised by the Maximum Authorized Rate to manage the district.

13. MAXIMUM AUTHORIZED ASSESSMENT RATE

The Maximum Authorized Rate is the maximum dollar amount that could be levied (if needed). This number is derived from the assessment rate established at formation of the district plus annual additional potential rate increases since formation of the district as determined by the Inflation Factor also determined at formation.

14. INFLATION FACTOR

The Inflation Factor is determined at formation of the MAD to address increases in costs of goods and services annually and is approved through the ballot process. Typically, potential increases in assessment are tied to the Consumer Price Index (CPI) percentage. Some districts allow an additional inflation factor of up to 3% above the CPI and a few MADs have no inflation factor and are limited to the same assessment levied since the formation of the district.

ASSESSMENT ENGINEER'S REPORTS (AER)

The Assessment Engineer's Reports can be found on the City of San Diego, Park & Recreation Department website at:

<https://www.sandiego.gov/park-and-recreation/general-info/mads/engreports>

Park and Recreation Department Maintenance Assessment Districts Program

City Contributions to MADs for General Benefit

The following chart summarizes the various types of City contributions to MADs for funding general benefit:

Maintenance Funding Source	Type of Maintenance Activity	FY2017 Proposed	FY2018 Proposed	Change
Environmental Growth Fund	Open Space	\$261,869	\$301,044	\$39,175
Gas Tax Fund	Street Medians	\$1,214,719	\$1,266,388	\$51,669
General Fund	Park Grounds	\$873,858	\$1,044,078	\$170,220
General Fund	Library Grounds	\$27,461	\$28,011	\$550
General Fund	Fire Station Grounds	\$15,424	\$15,733	\$309
General Fund	External Benefit Contribution	\$928,635	\$1,000,753	\$72,118
TOTAL		\$3,321,966	\$3,656,007	\$334,041

This chart provides the changes in rates between Fiscal Year 2017 and Fiscal Year 2018 for various types of City contributions to MADs:

Maintenance Funding Source	Type of Maintenance Activity	FY2017 Rate	FY2018 Rate	Change
Environmental Growth Fund	Open Space (per acre)	\$62.29	\$72.37	\$10.08
Gas Tax Fund	Landscaped Street Medians (per sq. ft.)	\$0.2867	\$0.2924	\$0.0057
Gas Tax Fund	Hardscape Street Medians (per sq. ft.)	\$0.0659	\$0.0672	\$0.0013
General Fund	Park Grounds (per acre)	\$7,233.91	\$7,626.00	\$392.0900
General Fund	Library Grounds (per acre)	\$5,650.62	\$5,764.00	\$113.3800
General Fund	Fire Station Grounds (per acre)	\$8,569.00	\$8,741.00	\$172.00

The charts on the following pages provide details for each City contribution calculation.
